

PUBLIC THANKED FOR CARE USED IN THE FOREST

Gratitude Is Expressed for July Fourth Record—Many in Sylvan Centers

The following bulletin was issued today by Rogue River national forest headquarters: "We who are responsible for

the protection of the Rogue River national forest are extremely proud and grateful for the fact that there were no man-caused fires on the Fourth of July. "This record is due to the splendid cooperation of the thousands of visitors in the forest. Had just one of those thousands failed to use care completely to extinguish a campfire or cigarette, a destructive fire would have been inevitable with the present tinder-dry conditions. "At Lake o' the Woods there were 800 summer home permittees and guests and 2,700 campers. In the Union Creek district there were 1,300 people; in the Butte Falls district there were not so many in the campgrounds

but the roads were heavily used. Thirty-eight cars made the Ashland Loop drive. "Fishing is Good "Fishing this week is generally good at the higher levels, but rather slow in the lower lakes and streams. In the Union Creek district, the Rogue River along the Diamond Lake highway is yielding good catches with flies and grasshoppers. Limits are being taken in Muir and Buck creeks; upper Foster and Union creeks are good and Copeland, National and Crater creeks fair. "In the Butte Falls district, grasshoppers are bringing limit catches in the south and middle forks of Rogue river; fly fishing in the Seven lakes has been only fair. At Lake o' Woods a few perch are being taken. At Four-mile still fishing is good for silversides and trolling for rainbow has been very successful. Big bass are being taken with live toads at Hyatt lake. At Sky lakes a few eastern brook and rainbow have been caught with spinners, worms and bucktail flies. Fish lake is only fair now. In the Applegate district there has been very little successful fishing this week. "Deer, Bears Seen "In the Rogue river outside the national forest, anglers report taking trout limits almost anywhere, the most popular flies being beaver kill, queen of the water and royal coachman, sizes 12 to 14. A few salmon and a few steelhead are also being caught. "Deer continue to be seen on many of the forest roads and camps, and bears in the Union Creek and Butte Falls districts. "The smoky atmosphere is caused by drift smoke from fires in the northern part of the state. The Rogue River national forest is free from fire and available for your enjoyment. We know that you will do your part to keep it so."

WEATHERFORDS HOME FROM NATIONAL MEET OF NAZARENE CHURCH

Rev. and Mrs. Fred M. Weatherford have just returned from the general assembly of the Church of the Nazarene, in Oklahoma City. They were delegates to that body, representing the North Pacific district. Rev. Weatherford disclosed some interesting facts as revealed in the Quadrennial General Assembly. There were more than 8,000 delegates and visitors registered. In the ten year period from 1929 to 1939, the Church of the Nazarene more than doubled its membership. In 1929, in the States, Canada, and the British Isles, it had a membership of 77,662. It had a membership of 161,487, the figures including its world membership is 172,144. The church led all denominations of more than 100,000 membership in per capita giving, with a total raised for all purposes during the last four years of \$17,931,366.00. The general assembly re-elected its two eligible general superintendents, Dr. R. T. Williams and Dr. J. B. Chapman. General Superintendent J. W. Goodwin, having reached the age limit for retirement was elected general superintendent emeritus. The denomination suffered the loss of its other general superintendent, Dr. J. G. Morrison, through death. As a result, two new general superintendents were elected, Dr. H. V. Miller assumes the general superintendency from the chair of Theology and biblical literature of Northwest Nazarene College, at Nampa, Idaho. Dr. Oral J. Nease, the other elected general superintendent, has formerly served the church in a varied field. After touring a trip taking him into thirteen states, Rev. Weatherford affirms that the Southern Oregon climate and the people of Medford and its environs compose a people and a geographic set-up fully suited to his liking. He will fill his pulpit morning and evening Sunday.

MOTH SPRAY IS URGED BY AGENT The first cover spray for control of second brood codling moth should be completed on July 13, according to L. G. Genner, entomologist of the southern Oregon experiment station, and C. B. Cordy, assistant county agent. Use three pounds of arsenate of lead plus one-sixth to one-fourth pound of spreader per 100 gallons, they advised. Where it is necessary to use oil for spider mite control, add one and one-fourth gallons of medium or light-medium summer oil emulsion to each 100 gallons of the spray, they said.

NO BAD CRASHES IN HOLIDAY TRAFFIC Although the highways were jammed with automobiles carry-

ing persons to streams, lakes, resorts and celebrities yesterday, not a single serious Fourth of July accident was reported to state or city police. The following four minor mishaps were on city police reports this morning: Franklin H. George of Medford and Elton A. Johnson of Trail drove cars involved in a slight accident on the Pacific highway near the Chateau Thursday morning. Marion M. O'Connor of Central Point and Lloyd Bennett of Medford operated cars colliding in the Eagle Point park Thursday morning. Harold Mitchell of 608 South Riverside avenue and A. L. Brody of 122 East 13th street drove machines involved in a slight wreck two miles north of Ashland on the Pacific highway Thursday morning. Marian Gould of 25 North Peach street and E. O. Checchi of McCloud, Cal., were drivers of cars involved in an accident on the Oregon Caves road Thursday afternoon.
