

MEDFORD TRAILS REST OF STATE ON SAFETY LIST

First Half Year Report Lists 331 Accidents With 76 Injuries for Jackson Co.

Medford and Jackson county made relatively poor showings in the state's traffic safety campaign in the first half of the year, it was revealed in a bulletin issued by the secretary of state's office.

In the Group 1 cities of the state, Medford was listed sixth and last. Last year Medford was awarded a plaque for its safety record.

For Jackson county the bulletin shows: 331 accidents in the first six months of 1940 as compared with 305 in the same period of 1939; 76 injuries as compared with 46; and seven fatalities as compared with three.

In the future a new method will be used in rating cities in order to attain a more accurate picture, the bulletin said. Henceforth each month will be compared with the average of the same month of the previous three years. In the past each month has been compared with only the same month of the previous year.

Salem, July 10.—(P)—A new record of 160 persons died in Oregon traffic accidents during the first half of 1940, being 10 more than the total for the similar period of 1937 when the previous high mark was set.

Twenty-nine more persons were killed during the first half of 1940 than during the first six months of last year, Secretary of State Earl Snell said.

The June total of 35 was a new record for the month and was an increase of 10 over the June, 1939, total.

Of the 35 persons killed in June, eight were pedestrians.

WAR COSTS ENGLAND \$26,000,000 DAILY; MORE TAXES NEEDED

London, July 10.—(P)—Britain is now spending 9,500,000 pounds, or \$38,000,000 a day, of which 6,500,000 pounds of \$26,000,000 is going to the army, navy and air force. Chancellor of the Exchequer Sir Kingsley Wood told the house of commons today.

Sir Kingsley made this announcement in asking a vote of credit for 1,000,000,000 pounds (about \$4,000,000,000). The house voted this credit and then went into secret session on economic warfare.

The government already has been given a blank check as far as appropriations go and parliament votes it money from time to time to pay the bills.

The last vote of credit was 700,000,000 pounds (about \$2,800,000,000) in March.

The chancellor said 575,000,000 pounds of this already had been spent. He warned that the gap between revenue and expenditure was widening and that additional taxes must be imposed.
