

WEIRTON STEEL LOSES ROUND IN BOUT WITH NLRB

Company Ordered to Disestablish Own Unions—Rehire Dismissed Employees

Pittsburgh, July 12.—(AP)—The \$125,000,000 Weirton (W. Va.) Steel company, headed by Ernest T. Weir, new deal for who successfully battled the NRA, today lost the first round in a four-year fight against the Wagner labor act, which Weir has opposed as "government interference in business."

Issuing a preliminary decision in its longest and costliest case, the national labor relations board ordered the concern to disestablish independent "company unions" at plants in Weirton, W. Va., and Steubenville, Ohio. Seventeen of 300 employees who claimed they were dismissed for "outside" union activity were ordered reinstated with back pay.

Must Cease Assaults The company was also directed to "cease physical assaults on union employees or inciting others to such action." The decision said that "special watchmen" employed by the company "roamed the streets, trailed CIO sympathizers and assaulted SWOC organizers." The CIO called the watchmen a "hatchet gang."

The board dismissed however, a petition by the CIO steel workers organizing committee seeking recognition as bargaining agent for the 12,000 employees of the company, main unit of the National Steel corporation, of which Weir is chairman. The board held the SWOC had not established a majority among the employees.
