Smith-Newhall Ceremony Read In Portland

One of the loveliest brides of early July was Miss Margaret Louise Smith, daughter of the Ward Smiths of Oswego, whose marriage to William Story Newhall, son of the Charles S. Newhalls of Medford, took place on Tuesday at St. Michael and All Angels church in Portland.

Rev. Frederick McDonald read the service in a setting of white gladioli and larkspur and the light of dozens of white candles. Individual candles marked each pew.

The bride's gown was a becoming model of white marquisette over taffeta with a bertha of rose point lace which the bridegroom's mother had worn on her own wedding gown. Her tulle veil was edged with lace and caught with orange blossoms and she carried an old-fashioned nosegay centered with an orchid.

Miss Gretchen Smith, the maid of honor, wore a frock in salmon pink in a style similar to the bride's and a quaint old-fashioned hat of pink flowers and net. Her bouquet was of pink and blue flowers arranged in a nosegay.

The bridesmaids were Miss Mary Ellen Smith, Miss Ruth Rogers, Miss Phoebe Breyman, Miss Ruth Rodda and Miss Ann Gardner. They made a pretty picture in their diaphanous frocks of haze blue net, with which they carried nosegays of pink and blue summer flowers.

George Parsons was best man for Mr. Newhall and the ushers were Gordon Ingham, John Day, of Medford, James Smith, Benjamin Allen and Robert Beebe. The wedding reception was held at the home of the bride's parents on Lake Oswego.

Among those assisting at the table were the Misses Phoebe and Anne Dean of Medford. After a wedding trip on the Olympic peninsula, Mr. and Mrs. Newhall will be at home about July 19, at the Hotel Edmond Meany in Seattle.

NORTON PONDER REEVE'SHIP FOR MINING CONCERN

Circuit Judge H. D. Norton, following arguments on the matter of the appointment of a receiver for the Pleasant Creek Mining company, of which Ed B. Hanley and Joe E. Most of Seattle are principal officers, took the matter under advisement today. Both sides filed briefs.

Attorney Evan Reames, appearing for J. B. (Jack) Horner of Seattle and other stockholders, told the court the receiver was sought "to protect the minority stockholders from the autocracy in charge." It was stated the dredge at the property had not been operated since last April 22. It was further claimed there was sufficient water in Pleasant creek for that purpose.

Horner sued the mining company last spring for a note adjustment, and to restrain the company from expending approximately \$30,000 for installation of new equipment. Hor-

ner was given a decision, which is now on appeal to the state supreme court.

Testimony in the case indicated the property was a good producer. It is located in northwest Jackson county near the Josephine county line.

A number of minority stockholders were present in court.

WHAT IS MALT?..

and how is it used in making beer and ale?

BARLEY

Answer: Brewers' malt is barley that has had its starches modified. The barley is first permitted to "sprout" by the addition of moisture. At the right instant, the growth is checked by heat and the sprouts are removed.

What remains is malt... the essential base of all good beer and ale. Every step in the brewing of good beer and ale has been taught by centuries of experience. Today, amazingly expert brewers—using only

the purest ingredients—make beer and ale the mild, tasty, wholesome beverages that they are.

Now the brewing industry is taking action to keep the retailing of beer as wholesome as beer itself. A plan to eliminate abuses is already in effect in a number of states. It is being extended. Ask us for an interesting free booklet.
