

CHURCHILL SAYS BRITAIN SEEKS PEACE IN EAST

British Agree Stop War Materials On Burma Road in Effort End Sino-Jap Fight

By Frederick Kuh, (UP Staff Correspondent) London, July 18.—(UP)—Prime Minister Winston Churchill told a critical house of commons today that Great Britain agreed to cut off war materials to China for three months in the hope that equitable peace could be achieved in the far east and that Britain was prepared to offer collaboration.

The British "contribution," Churchill said, was a renewal of the government's 1939 declaration of willingness to negotiate, after conclusion of peace, with a free and independent China for abolition of foreign extraterritorial rights, return to China of concessions granted foreign powers and revision of treaties on a basis of reciprocity.

Great Britain, he said, has given full consideration in this connection to the attitude of Soviet Russia and the United States, which viewed the closing of the Burma road to supplies for China as an obstacle to foreign trade.

Facing a house of commons that yesterday heard the agreement to Japanese demands denounced as "shameful" appeasement, the prime minister said that Britain desired to see "the Chinese status and integrity preserved." He added that Britain was prepared to aid in achieving that goal and in seeing Japan "attain that state of prosperity which will ensure her population of the welfare and economic security that every Japanese naturally desires."

"Toward the attainment of the aims of both of these countries, we are prepared to offer our collaboration and our contribution but it must be clear that, if they are to be attained, it must be by a process of peace and conciliation and not by war or the threat of war," he said.

Phillip Noel Baker, laborite, asked whether Churchill meant that the government still adhered to the nine-power treaty which was to have guaranteed the integrity of China, and to other treaties, but the prime minister declined to elaborate.

COURT ORDERS PUC TO ISSUE PERMIT

In a decree and order handed down today by Circuit Judge H. D. Norton the Public Utility Commission of Oregon, Ormond R. Bean, chairman, is ordered to issue a permit immediately to D. E. Warner and A. McClanahan, to operate a commercial carrier by motor vehicle, within a 50-mile road radius of Medford.

The Public Utilities Commission denied Warren and McClanahan's application for a permit several weeks ago, and they filed suit, accordingly.

The court, in its decree, holds refusal to grant the permit is void; that the applicants are equipped for hauling, and that their operation as commercial carriers will not be competitive to others in the same business.

EMPLOYERS WILL EYE RESOLUTIONS PASSED BY LABOR

Recognizing the importance of the topics to be discussed at the open forum employers' conference to be held here Friday, July 26, the state unemployment compensation commission has delegated two men to attend the Medford meeting and assist in the program.

The principal topic of discussions will be the effects the adoption of resolutions advanced by organized labor will have on the present unemployment compensation act.

These resolutions, passed at the recent annual convention of the Oregon Federation of Labor would entirely revamp the present act and bring about changes which would seriously affect and increase the payroll tax, the present method of financing unemployment relief.

Waiting periods for the payment of unemployment checks is reduced from three weeks to one week; the amount of the payments is increased, and "seasonable" employment is abolished by the resolutions.

At the Medford parley, the commission will be represented by Ralph H. Campbell, assistant state attorney-general and attorney for the commission, and Virgil L. Sexton, supervisor of research and statistics.
