

BRITAIN PLEDGED GIANT SUPPLY OF PLANES FROM U. S.

3,000 Per Month Sought in Addition to Huge Orders Previously Placed Here

Washington, July 25.—(AP)—Secretary Morgenthau said today the United States had pledged "every facility" to enable the British to buy 3,000 military airplanes a month in this country, in addition to huge orders previously placed.

Confirming an announcement in London by Lord Beaverbrook, the treasury head said that the new arrangement was in addition to all previous orders, and would require construction of new factories.

The British have promised to pay for the erection of the new factories as well as to buy their output, Morgenthau added.

Expand Capacity. He said the new factories involved in the program would give the United States capacity to build "far in excess" of 50,000 planes a year, set by President Roosevelt as a goal in his May 18 defense message. He declined to estimate the exact capacity planned.

Saying that the British "seem to have plenty of money," Morgenthau said that the "sums involved are colossal."

"For our own national defense and for the benefit of American industry," he continued, "I believe this is the most important thing with which I have come in contact."

Specifically, Morgenthau explained, the British proposed immediate action so that they could get delivery on 3,000 airplanes during each month of 1941 and 1942.

DAIRY TRUCK UPSET IN COLLISION WITH CAL-PACIFIC TRUCK

Two trucks were badly damaged but nobody suffered injuries other than small cuts and bruises in a collision at Ninth street and Portland avenue early last evening.

City police said that a Clover Hill dairy truck operated by Ralph Carmichael of Jacksonville, and traveling north on Portland avenue, was struck and knocked over by a California Pacific Utilities truck driven by Homer J. Reed of 328 Edwards street, moving east on Ninth street.

Reed told police that he was blinded by the sun and failed to see the dairy truck in time to avoid striking it. The dairy truck, police said, was knocked 34 feet and overturned. The utilities vehicle suffered a caved-in front end.

Harold Meyer, "bottle hopper" on the dairy truck, and Carmichael, the driver, suffered minor cuts and bruises. Reed was uninjured.

SOME BARTLETTS READY FOR PICKING

Pressure tests made today by Horticulturist C. B. Cordy shows that Bartlett pears in a few of the orchards are now ready to pick, but due to the ground being wet from irrigation, picking will be delayed. Packing plants of the city have been busy for two weeks getting in shape for opening and gathering up and repairing lug boxes.

SHERIFF FORMING MOUNTED POSSE; MEETING SLATED

Horsemen Invited to Gather Monday Evening — Parades, Criminal Hunts Aid

A meeting has been called for next Monday evening at the courthouse for the purpose of organizing a sheriff's posse, composed of horsemen of this city and the valley. A preliminary meeting was held Tuesday evening in the sheriff's office, and 24 members were secured. The horse brigade will take part in parades and festive occasions, and be subject to call in chasing criminals where autos cannot be used, and locating persons lost in the hills.

Sheriff Syd I. Brown fathered the idea after he learned similar organizations had been formed in Klamath and Marion counties. The sheriff, born and raised in Texas, rode a horse before he could walk, and has been promised the honor of heading all parades aboard a white Arabian stallion belonging to Arthur I. Moulton of Portland.

Several Enlisted. A number of horsemen of the Applegate, including Jim O'Brien, Edwin Kubli and Leon Offenbacher, have enlisted.

Medford residents, among others interested in the organization, are Attorney Hilding Bengtson, Attorney Allison Moulton, Ralph Stephenson, Deputy William Grenoemer, Henry Fluhrer, Raymond Reter and Jack Moran.

Miss Helen Dugan of the county clerk's office, an ardent horsewoman, is also among the members.

Sheriff Brown reports there are many fine horses and riders in the county, and requests all interested to contact him, or come to the meeting next Monday.

D.A.V. TO HELP FIND SKILLED WORKERS IN REARMING PROGRAM

As a means of contributing its part to the national defense program, Jackson county chapter of the Disabled American Veterans of the World War announced its willingness today to help procure the skilled workmen needed to carry out the nation's plans.

"Because of a shortage of skilled workers, industry is being handicapped in its efforts to reach maximum production with a minimum of delay," said a statement issued by the chapter. "The federal government itself is unable to obtain the type of men needed in the navy yards, arsenals and other production centers. A list of 275 selected occupations in which men are needed has been issued to various agencies throughout the United States in an effort to procure qualified workers."

"The Disabled American Veterans of the World War desires to cooperate in this program of national defense. To help in the plan of cooperation, veterans should apply to Carol J. Parker, commander of Jackson county chapter No. 8.

"Several training schools have been established to give advanced instruction in a number of trades and occupations and others are to be established."

Lot of Baloney. Streator, Ill.—(AP)—A traffic law offender, indignant over a fine of \$5 and costs, told Police Magistrate F. P. Goebel he'd go to jail rather than pay up. He was sentenced to serve 17

days, and for his first meal in jail received the usual meal—bologna, bread and coffee. The jailer found the offender's food untouched. "What's the matter?" he asked. "I don't like bologna. Let me out of here. I'll pay the fine."

Adds To Knowledge Vassalboro, Me. (AP)—A farmer who had read all about this "fifth column" business, became suspicious when he found an apparatus resembling a radio attached to a parachute, in his pasture. He called in the newly-formed American Legion police. They gingerly picked up the contraption and rushed it to the Augusta airport. Officials there explained that the instrument

was sent up by balloon from the federal weather bureau at Portland, 76 miles south, to record atmospheric conditions.

When a fish nears, into the water goes Nero. Once he caught a fish eight inches long.
