

### PLANS COMPLETE FOR REGISTRATION OF AMERICAN MEN

#### Present Election Machinery to Be Used Far As Possible; World War Pattern

Washington, July 26.—(AP)—The joint army-navy selective service committee has completed preliminary plans to register all American men between 18 and 65 years of age under the pending compulsory military training bill.

Sample registration and identification cards and a sample eight-page questionnaire that would be sent to all men after registration were presented to the house military affairs committee yesterday by Maj. Louis B. Hershey, representing the army-navy committee, during consideration of the Burke-Wadsworth bill.

**Use Election Set-Up.** Hershey said that the committee planned to use present election machinery as much as possible and to establish approximately 6,500 local selection boards throughout the nation.

The proposed cards and questionnaire he presented were patterned after documents used during the World War and were printed two or three years ago to provide training for army officials who will be charged with the registration machinery.

The proposed registration card contained 19 questions, including: Name, age, permanent mail address, telephone number, employer's name, place of employment or business, place of birth, and date of birth.

Other questions were: Of what country are you a citizen? Have you taken out first naturalization papers? Name of person "who will always know your address." Relationship and address of that person.

The remaining questions were concerned with identification only—race, height, build, color of eyes, color of hair, complexion, and: "Has person lost arm, leg, hand, or has he any other obvious physical characteristic that will aid in identification?"

**Be Alert.** The identification certificate, which would be issued on the date of registration, would bear the registrant's full name, address and signature, and this inscription—"Be alert. Keep in touch with your local board. Notify local board immediately of change of address."

On the reverse side would be carried the registrant's physical description, corresponding to the replies given to the inquiries on the registration card.

The proposed questionnaire contained 12 sections of detailed inquiries relative to the amount of income earned, possibility of a criminal record, and claims for exemptions for dependents, disability, occupation or religious conviction against war.

The sample questionnaire was prefaced by a warning that failure to fill out the document was punishable by fine and imprisonment "and may result in immediate induction into the military service."

**Robbed**

Pittsburgh—(AP)—Mrs. Avilla Halluin thinks it might be more profitable to turn her dining car over to robbers instead of trying to operate it herself. The place has been burglarized 17 times in five years.

### DARK DAYS AHEAD; AMERICAN LADIES QUIT BLONDE DYE

#### Hairdresser to Society and Film Stars Says Ratio of Light Hair Falling Fast

New York, July 26.—(AP)—The dark news today is that the nation is fast losing its blondes.

Gentlemen may profess to prefer them but the ladies are skeptical and so—in the opinion of Robert, hairdresser to society and the stars of the screen—American women are tiring of golden and platinum tresses and are scrambling from one end of the country to the other to achieve a new crowning glory of ebony, chestnut or even henna.

During the past four years, Robert reports, the tendency of American women to darken their hair has been such as to indicate that blondes may vanish altogether. The instigators of this movement, he believes, are those arbiters of style, the movie stars, and Robert deplors their switch from blonde to brunette not only on esthetic grounds but also for reasons touching on the international situation, to wit:

**Ratio Dwindles** "It is unfortunate, what with the news from Europe becoming more and more unfortunate, that the gaiety and brightness and color of light hair should become less and less evident." Today, he said, about one woman in five is blonde whereas in 1936, when the platinum-haired Jean Harlow was at the peak of her movie career, three out of four American women had light hair.

### CARRIER JUSTIFIED IN KILLING POOCH

Portland, Ore., July 26.—(AP)—Twenty-six dogs have bitten postal carrier Lowery Huey, 46, in 13 years and that's enough to mitigate the seriousness of throwing grass shears—with fatal results—at the 27th, Municipal Judge Julius Cohn concluded today.

The judge deferred sentencing Huey who was convicted of damaging personal property. The shears the postman hurled killed Mrs. John G. Lake's dog. Huey testified that he acted in self defense, explaining that dogs, without provocation, chewed him on an average of twice a year.

### WALLY'S FIRST HUBBY LOSES SECOND WIFE

Santa Monica, Calif., July 26.—(AP)—Commander Earl Winfield Spencer, retired navy officer and first husband of the Duchess of Windsor, has been divorced by the former Norma Reese Johnson on grounds of habitual intemperance and cruelty.

Mrs. Spencer, who married Spencer three years ago after the death of her first husband, a Detroit manufacturer, testified with two daughters by a previous marriage that Spencer went on week-long drunks and when he became intoxicated, would speak Chinese and was "really a mental case."

## The Test of GOOD FLOUR

ANY bread tastes fine if eaten while fresh from the oven. Most hot breads taste the same but how about it when three or four days old.

Bread baked with Flavor Loaf Flour actually improves in flavor to and including the fourth day and maybe longer. We only made the test up to four days (made it with three bakings) so can't say about a longer period.

Flavor in bread must come from the kinds of wheat used in the milling. Western highland Blue Stem while the most flavory of all wheats lacks gluten necessary to lightness and texture. Blended with high gluten Montana hard wheat the necessary gluten is provided, thus producing a light velvety loaf of bread with the full nut-like flavor of Blue Stem fully retained—a flavor left in the loaf after the oven freshness taste appeal is gone.
