Jacobs-Cameron Ceremonies Read In Grants Pass

United in marriage last Sunday afternoon at 2 o'clock in the manse of the First Christian church in Grants Pass were Miss Edith Lyndall Jacobs and Leroy Cameron of Gold Hill, Rev. N. L. Palmer read the service before a small group of friends and relatives of the couple from Grants Pass, Gold Hill and Medford.

The bride wore a becoming two-tone redingote and a corsage of gardenias and stephanotis. The couple was unattended. They left shortly after the ceremony by motor on a wedding trip.

They're "Moving the Rains"—on a truck

MARK TWAIN'S MOST quoted Winchellism observed—remember?—that everybody criticized the weather but nobody did anything about it. "We're Moving the Rains" begins Wagner White in a recent "Post" article on California's Central Valley project. . . . Hm-m—looks like a clash of opinion. But Standard has helped make both right.

In his day the author of "Huckleberry Finn" was correct enough. Petroleum was satisfied to furnish kerosene for oil lamps. It had not yet taken off its coat and made possible such jobs as moving the weather. It didn't know its own strength.

Even today vast projects like Central Valley, Grand Coulee, Bonneville and Boulder Dam would remain on the dreamy side but for oil-driven trucks, bulldozers, shovels, locomotives, cranes, tractors, concrete-mixers—all that husky family of ton-tossing equipment which can move itself as well as mountains.

In the development of better gasoline, better Diesel fuel, better lubricants—the "I-cannot-live-without-you's of these heavy duty doers—this Company has been a leader since Twain's time. Nearly as important has been Standard's contribution toward making these essentials widely available. Otherwise the West might be left to re-fashion its rivers, move its rains, re-Eden its endless acres—by 20-mule team.
