

Axis Massing Forces

Axis powers were reported massing for the invasion of England, but Virginio Gayda, Fascist editor, hinted it might not be immediate. Map shows: (1) Reported bombing of Swansea and Plymouth. (2) Germans and Italians reported massing on coast-line. (3) Rail communication into unoccupied France closed. (4) Reported concentration of Spanish troops back of Gibraltar. (5) Massing of Italian planes at Sardinia.

NAZIS IN FRANCE SEAL SWISS LINE

Geneva, Aug. 2.—(P)—The German army of occupation in France has ordered closing of the Swiss-French border from

Geneva to Basel, effective Aug. 4th. Many observers viewed this as a new indication that the Germans are sealing all possible channels through which news of preparations for the invasion of Britain might reach the outside world. Even the passage of farm workers and farm owners with jobs or property in villages across the frontier was banned.

SPY TALK TICKLES GERMAN EMISSARY

New York, Aug. 2.—(U.P.)—Dr. Gerhardt Alois Westrick, Nazi commercial emissary, appeared at the motor vehicle bureau today to find out about the revocation of his automobile license because he did not notify the bureau of a change of address, and while there said he was highly amused by the "spy stuff in the papers."

Dr. Westrick had been the subject of considerable publicity following disclosures that he had established headquarters at an estate in Scarsdale and had received a number of American business men there.

In good humor, except when camera men attempted to take photographs, he said his sole duty in this country was to prepare the way for trade between Germany and the United States after the European war.

AMORTIZATION IN DEFENSE FAVORED

Washington, Aug. 2.—(P)—The house tax subcommittee voted tentatively today to permit national defense contractors and subcontractors to deduct the entire cost of defense plant expansions from their taxable earnings. The deduction would be 20 per cent annually for five years.

At the same time, the committee also voted to recommend to the full ways and means committee that this defense plant amortization plan be incorporated in a single bill along with an excess profits tax and a suspension of the Vinson-Trammell act restriction on warship and military plane profits.

Britain Will Buy Canadian Wheat

London, Aug. 2.—(P)—An agreement to buy 100,000,000 bushels of Canadian wheat was announced today by the food ministry, which said "This is the largest purchase ever recorded."

The agreement was made with the Canadian wheat board and covers "this cereal year, July, 1940, to 1941."

Fugitive General To Die If Caught

Clermont-Ferrand, France, Aug. 2.—(P)—General Charles De Gaulle, the French officer who formed a provisional French committee in London to carry on the fight against Germany, was condemned to death today by a military court which tried him in absentia.

Finland Bans Meetings

Helsinki, Aug. 2.—(P)—President Kyosti Kallio, prompted by recent youth demonstrations, issued a decree today banning public gatherings without official permission and directed police to disperse illegal assemblies which might threaten public order or "injure the state."

WHY BUDGET?

Shop here and Save. Check your food costs at the end of the month. Our Greater Savings make a budget unnecessary because we are continually passing on to you lower prices that we didn't think possible the first of the year.
