

LINDBERGH URGES COOPERATION EVEN IF GERMANY WINS

Noted Aviator Says Agitation for U. S. Entry in War Increasing at Fast Pace

Chicago, Aug. 5.—(P)—American opinion is now definitely and overwhelmingly against involvement in the European war, says Col. Charles A. Lindbergh.

The noted American aviator, in an address yesterday at a peace rally at Soldier Field, urged "cooperation" with Europe "in our relationships with the other peoples of the earth."

He told a crowd estimated at 40,000 that agitation for America's entry into the European conflict had increased with alarming rapidity.

"But," he said, "when the danger of foreign war was fully realized by our people, the underlying tradition of American independence arose and in recent weeks its voice has thundered through the weaker cries for war."

Cooperation Urged

Interrupted frequently by applause, Col. Lindbergh pleaded for American cooperation with Europe—although advocating the non-interference of this nation in Europe's internal affairs.

"It is only by cooperation that we can maintain the supremacy of our western civilization and the right of our commerce to proceed unmolested throughout the world. Neither they nor we are strong enough to police the earth against the opposition of the other."

"In the past we have dealt with a Europe dominated by England and France. In the future we may have to deal with a Europe dominated by Germany. But whether England or Germany wins this war, western civilization will still depend upon two great centers, one in each hemisphere."

U. S. Should Re-arm

America should re-arm "fully" for its defense, Col. Lindbergh said, and should "never make the type of treaty that would lay us open to invasion if it were broken."

"But if we refuse to consider treaties with the dominant nation of Europe, regardless of who that may be, we remove all possibility of peace."

JACKSON COUNTY IN FAIR PLANS

Treasure Island—(Sp.)—The Shasta-Cascade Wonderland counties of northern California and southern Oregon will be honored and publicized by an official day at the California state fair September 9. This was announced at a meeting of the board of directors of the state fair in the California building at the Golden Gate international exposition.

Tom L. Stanley, general manager of the Shasta-Cascade Wonderland association, is already at work in co-operation with Raymond R. Stephens, supervisor of special events for the fair, arranging a program of special events designed to obtain full publicity and advertising advantages for Jackson county and the other eight counties of the Wonderland region, a press release said.

"Yes--Maybe"

Mary (Stuttering Sam) Dowell (above), Broadway show girl, said at Fort Worth, Tex., that she murmured "Yes--Maybe" to a proposal by Benny Welles, 27, son of the under-secretary of state. She's wondering, however, what the Welles think of a girl called "Stuttering Sam."

MORE THAN 600,000 VISITORS HAVE SEEN WONDERLAND EXHIBITS

Treasure Island—(Sp.)—With total paid attendance at the 1940 Golden Gate international exposition reaching three million recently, the Shasta-Cascade Wonderland exhibit building has drawn more than 600,000 visitors through its doors.

This estimate is based on accurate percentages obtained by careful checking at varying hours of the day and over a period of weeks and months.

That the Wonderland exhibit is fulfilling the purpose for which it was intended, that of publicizing the Wonderland scenic region of northern California and southern Oregon to exposition visitors from all parts of the world and attracting more vacationists and tourists into the region, is attested by the heavy attendance, thousands of registrations and favorable comments and the routing of hundreds of parties into the area.

The exposition will definitely close September 29.

The question most frequently asked in the Shasta-Cascade Wonderland and other regional exhibit buildings is: "What is to be done with these beautiful buildings and exhibits?" Consensus among visitors is that the buildings should be preserved as permanent regional exhibits in the respective areas.

This opinion is being so generally expressed by public and press that it is reported that the California commission for the exposition is in a favorable mood to make it possible, at relatively small cost, for each of the regional groups, through the county governments, to dismantle, transport and re-erect the exhibit buildings at strategic points in their areas as a permanent means of attracting visitors into their territories.

Tuna Price War

Astoria, Ore., Aug. 5.—(P)—A price war between California and local buyers sent albacore tuna soaring to \$140 a ton today, the highest figure ever paid here.

EVENTUAL PARDON IS EXPECTATION OF DE AUTREMONT

Hugh Model Prisoner During 13 Years Since Conviction in Siskiyou Murders

Salem, Ore., Aug. 5.—(P)—Hugh DeAutremont, who with his twin brothers Roy and Ray killed four men in a brutal Southern Pacific train robbery in 1923, believes he will some day be pardoned for his crime.

He has served 13 years of a life term. He has been a model prisoner and now works in the prison print shop where he edits the prize-winning penitentiary magazine, Shadows.

Hugh, who has aged considerably in the past few years, told the United Press that "serving a life term is no fun." Asked if he expected ever to be released he said:

"Oh, I suppose I will eventually."

Prison officials think differently, since there is a federal "hold" order on him, ordering his arrest on a federal train robbing charge if he is ever released.

Release Chance Remote

The chances of any of the bandit-brother trio ever being released seem remote to most observers. The hold-up murder at tunnel 13 in the Siskiyou mountains has been voluminously reported as one of the most brutal in the modern annals of crime.

The three brothers practised shooting for weeks and then on a dark night stopped the train at the edge of the tunnel, shot down Fireman Marvin Sidney Seng, brakeman C. C. Johnson, Mail Clerk E. E. Dougherty and Engineer Sidney Bates. The death of Bates was calmly discussed in front of the engineer himself before Hugh shot him in the head.

The chase lasted half way around the world. Hugh was caught while masquerading under the name of Rice in the Philippines, and Roy and Ray were taken at Steubenville, Ohio, while Hugh was being tried.

HOT ASHES CAUSE NO. CENTRAL FIRE

Answering the first call in more than a week, the fire department rushed under a ward alarm this noon to the north end of North Central avenue where grass was burning between the W. A. Martin house at 117 East McAndrews road and the Timber Products company, the blaze creeping dangerously close to piled lumber.

The blaze was put out before any damage was done. Evidence indicated the grass had been ignited by hot ashes dumped in the yard, Edward Canoose, assistant fire chief, reported.

CENTRAL PT. BOY BREAKS LEFT LEG

Donald Holland, twelve year old son of Mrs. Dollie C. Holland of Central Point, is confined in the Community hospital with a broken leg as the result of an accident Sunday morning.

The mishap occurred when Donald was playing in the Ross barn in Central Point. He jumped from one hay stack to another in the barn, a distance of about five feet, and broke his left leg at the knee.

After spending several days in the hospital, Donald will be moved to his home, relatives report.

The Mail Tribune wants ads.

A MINX IN LYNX—Fur-bearing animals are in for the supreme sacrifice, judging from the current emphasis on fur fashions. In this natural lynx worn by Olivia de Havilland, crepe sections at sides and under arms prevent bulkiness.

PICKERS EXHAUST HUCKLEBERRIES IN WEEK-END FORAY

Huckleberry pickers came into their own over the week-end when the woods were virtually full of them.

In some areas the pickers picked the crop clean. Rogue River national forest headquarters stated today after a survey had been made.

Two hundred week-end pickers in Blue canyon went home with a total take of 500 gallons, headquarters said. One family, after camping in the area several days, drove off with 70 gallons, according to the tabulation. The Blue canyon crop was virtually depleted, a survey showed.

Five hundred gallons of berries were taken over the week-end from Huckleberry City (Huckleberry mountain) by 300 pickers. The crop there also was practically depleted.

Fifty pickers harvested 100 gallons in the Lake o' Woods area.

There were fewer pickers and better picking in Huckleberry gap on the Umpqua divide, but no check was made of the harvest, headquarters stated.

TOURIST DROWNS AT FT. KLAMATH

Klamath Falls, Aug. 5.—(P)—Fred Dale Bashore, 27, of Los Angeles drowned yesterday in a popular gravel pit swimming hole near Fort Klamath, the accident marring a picnic for several hundred members of Masonic lodges.

Mr. and Mrs. Bashore and Mr. and Mrs. Howard Chaney, also of Los Angeles, stopped off at the pool on the Crater Lake highway for an impromptu swim. Chaney said Bashore dove in and swam part way across, turned and called for help and sank in about 25 feet of water.

Several expert swimmers in the pool at the time dove unsuccessfully for more than an hour before deputy sheriffs arrived and brought the body up with a drag line. A pulmonologist failed to revive him.

CAVEMEN RETURN TO COOL OFFICES

Grants Pass, Aug. 4.—(P)—Weary and sunburned Oregon Cavenmen crawled out of coyote skins and sought shade in caves and offices today after an exciting trip to Salem's centennial where they built a fire under the dome of the state capitol building, without a sign of resistance threatened by Eugene vigilantes, Coos Bay pirates, and Salem whiskeys.

Photographers' flash bulbs flared as Governor Charles Sprague squatted besides the flames for proof of the feat. A layer of asbestos under the bonfire added a modern note to the occasion.

PERSHING URGES DESTROYER SALE TO HELP BRITAIN

World War Commander Sees Most Critical Time in Next Few Weeks—Duty Cited

Washington, Aug. 5.—(P)—A proposal to send to beleaguered Britain at least 50 American destroyers carried the endorsement of General John J. Pershing today.

The man who commanded American soldiers in France during 1917-18 declared that destroyers left over from World War days should be made available to the British as a safeguard of American freedom and security.

Predicting that the most critical time for England would come in the next few weeks and months, Pershing said in a radio speech last night:

"If there is anything we can do to help save the British fleet during that time, we shall be failing in our duty to America if we do not do it."

The general of the armies said he saw "grave danger" for the United States in the present world situation, and blamed disasters in seven of eight nations on "appeasers who would not take the danger seriously, who would not prepare while there was still time."

Pershing declared that "today may be the last time when by measures short of war we can still prevent war (for the Americas)."

AUTO WORKERS IN FAVOR 3RD TERM

St. Louis, Aug. 5.—(P)—The United Automobile Workers of America, second largest union in the CIO, today threw its support behind a third term for President Roosevelt.

Delegates to the international union's annual convention adopted a resolution giving "unswerving support and allegiance to the cause of the new deal and for the election of Franklin D. Roosevelt."

Although a stormy debate preceded adoption of the resolution it was approved by a 507 to 40 vote.

EBEL RETURNS FROM BEAVER BOYS' STATE

Everything is all right so far as the Jackson county youths at the Beaver Boys' state is concerned, Robert E. Ebel reported today after his return by United Mainliner from Portland last night.

Mr. Ebel accompanied the 16 Medford and Ashland area boys to the Hill military academy for the annual training in government. Sixteen other youths boarded the train at Grants Pass and five at Roseburg. Mr. Ebel and J. H. Gordon of Grants Pass accompanied the boys and saw them safely established in camp.

The Medford and Ashland boys got their pictures in the Portland newspapers yesterday. Mr. Ebel reported.

SNAKE BITE RITUAL LEAVES WORSHIPPER WITH SWOLLEN ARM

Cincinnati, O., Aug. 5.—(P)—Mrs. Ethel Sheehy, 48, who handled a copperhead snake at a service at the True Church of God in Cincinnati Sunday night, was in serious condition in a hospital today, her right hand and arm swollen from the snake's bite.

Police learned from other members of the church, where snakes have been handled as a part of the religious service, that five others have been bitten by snakes in a month.

Authorities were looking up laws and ordinances to see if they could ban the use of reptiles in religious services.

A police squad visited the church before Mrs. Sheehy was bitten and took a copperhead which was being passed among the members.

Creatures of Habit

Belleville, Kas.—(P)—Lawrence Havel, a farmer, removed a board that had been lying across his stock water tank. In two nights 131 rats, that didn't look before they leaped, were drowned as they jumped for the board from which they had been accustomed to drink.

NEW COPCO LINE READY TO SERVE JOSEPHINE AREA

\$150,000 Improvement Will Eliminate Blackouts Due to Failures Near Gold Hill

Grants Pass, Aug. 5.—(P)—California Oregon Power company's \$150,000 improvement to extend service and eliminate power failures in Josephine county will be energized this week, Manager W. J. Moyer said today.

A new 66,000 volt line from Medford through the Applegate valley to Grants Pass via Jacksonville, Murphy and New Hope will be cut into the present system. It will supplement the present line along the Pacific highway which frequently short circuits in the neighborhood of the cement factory at Gold Hill, blacking out eastern Jackson county, all of Josephine, and Glendale in Douglas county. Either line will be able to carry the whole load if the other fails.

New radio-silent insulators have been installed along the new line.

FORRESTAL NOMINATED AS NAVY HEAD'S AIDE

Washington, Aug. 5.—(P)—President Roosevelt nominated James V. Forrestal, of New York, today to be under secretary of the navy, a post created by the present administration under recently adopted legislation to reorganize the navy.

Forrestal, former president of Dillon, Read and Co., has been serving as an executive assistant to Mr. Roosevelt. His new post is next in line to the secretaryship held by Col. Frank Knox.

Australia is the only completely isolated continent.
