

SWIMMING LURES RECREATIONISTS TO FOREST AREAS

Shaded Lakes and Pools of Sylvan Land Offer Cool Way to Enjoy Summer

The following recreational bulletin was issued today by Rogue River national forest headquarters:

"Swimming in the shaded lakes and pools of the Rogue River national forest is the most pleasant thing we can imagine during this hot weather."

"In the Applegate district, the McKee Bridge camp offers ideal swimming. Four miles farther on at the Beaver Sulphur camp there is a similar pool at a campground, not so well known and therefore not crowded as it usually is at McKee."

"At Dead Indian Soda Springs a swimming pool has been provided in connection with the resort. Lake o' Woods is, of course, famed for its beaches and swimming."

Hike Combined
"Blue Lake and Round Lake offer swimming in combination with a two-mile hike by trail from the Blue Rock lookout."

"At Union Creek and Natural Bridge the water is too cold for any but the most hardy, but sandy beaches are used for sun-

ning and shallow water for wading.

"Fishing in smaller streams of the forest is about ended for the summer. In Fourmile lake, good catches of silversides are being taken with cluster eggs, and rainbow and eastern brook with flies and trolling with trout-ornos. The Fish lake season closes August 15 and very few catches are being made there now."

Trolling Succeeds

"Lake o' Woods is good for perch and in Klamath lake large rainbow are being taken by trolling. In Margaret lake of the Sky Lakes group, eastern brook are biting well. At Seven lakes, the trout are not taking flies but fair catches are being made with bait. South and middle forks of Rogue river are yielding good catches with greyhackle flies."

"In the Rogue river from Prospect to Grants Pass trout fishing is reported as fair, with best lures flying caddis and royal coachman. The summer run of steelhead has not appeared, although an occasional one has been taken with a small spinner. A few salmon are moving in on the spawning beds, but not in sufficient numbers to make single egg fishing worth while."

"The huckleberry crop is past its peak now but some berries may be found in the more remote spots at Huckleberry mountain and at Blue Rock. At Parker Meadows and upper south fork of Rogue river there is fair picking in patches not immediately adjacent to the roads and trails. The evergreen blackberries in the Applegate district are beginning to ripen and will be at their best in another week or two."

Camps for Picnics

"Picnics of organized groups are now popular at Lake o'

Woods where the White Pine picnic area is reserved this week for Lorenz Hardware company and next week for the Business and Professional Women of Klamath Falls, Medford and Grants Pass. This area, and similar ones at the Union Creek and McKee Bridge camps, with community kitchens and large tables, may be reserved by any groups through the ranger or supervisor's office.

"Conditions continue to be critical for forest fires. Smoke only while stopping in a safe place, put your camp fire dead out with water, and thereby do your part in protecting the forest."

Tonight's Service To Be Outstanding In Nazarene Meet

The main auditorium was packed last night at the indoor camp meeting at Medford Church of the Nazarene, Holly at First, to hear Prof. and Mrs. Elbert T. Tindley sing and Dr. T. W. Willingham deliver a sermon on "Why Halt Ye Between Two Opinions?"

Rev. Fred M. Weatherford, pastor, stated, "We are expecting one of the outstanding services of the campaign tonight at 7:45."

Saturday night Dr. Willingham speaks on "The Power of the Devil and His Influence."

Dr. Willingham will address the Sunday school at the opening period, at which time a great rally has been planned. Professor and Mrs. Tindley will also participate. At 10:45 a. m. Sunday, Dr. Willingham will speak on "The Work of the Holy Spirit." At 7:45 p. m., which will witness the conclusion of the camp meeting, he will speak on "The Reaper's Time."

The public is extended a cordial welcome.
