

### OAKLAND CONCERN GIVEN CONTRACT AIRPORT STATION

Contract for the construction of the U. S. army air corps radio operations building at Medford municipal airport has been awarded to A. T. Beckett of Oakland, Cal., it was announced here yesterday.

Beckett's bid was \$9,400, considerably more than the sum originally allotted for the building. The bids were opened in the office of Maj. E. P. Antonovich, constructing quartermaster at McChord field, Tacoma, Wash.

**Work Starts Soon**

Work on the building is to be started in the near future. It will be a one-story brick building with a tile roof. The building will be erected a little south and to the east of the hangar. Outside dimensions will be 29 by 45 feet.

The building will contain the radio operating room, office, locker room with 15 lockers, shower room, large vestibule and heating unit room. It is intended for use not only by the radio operating personnel but by army pilots passing through.

It was originally planned as a two-story structure with sleeping quarters and a lounge room for pilots but the cost, as shown in the first set of bids, was found too much in excess of the \$7,500 earmarked for the building. All original bids were thrown out, new plans and specifications drawn up and new bids asked for.

**To Lay Cable**

In addition to the building, a contract is expected to be let soon for the laying of the cable to connect the operations building with the radio transmitter situated on Crater Lake highway. This in itself, it was said, will involve a considerable expenditure. Work has been done on the trench for the cable.

The project for the radio operations building was started by the Jackson County Chamber of Commerce and the army representatives here. Spokesmen for both and for the city yesterday expressed their gratification upon receiving word that the contract had been let.

Receipt of word of the awarding of the contract followed closely the announcement Friday afternoon that the war department had approved a \$120,000 airport improvement plan as a WPA project under the country's defense program.

Kenneth S. Perry, engineer from the state WPA office at Portland, came here to work with Fred W. Scheffel, city superintendent, and his aides in preparing detailed plans and specifications in an effort to expedite the work. Mr. Perry and Mr. Scheffel stated yesterday that the detailed plans and specifications would probably be completed Tuesday. The work sheets must then be approved by various officials.

### T. H. NESS, COPCO MANAGER, PASSES

Thomas H. Ness, 60, division manager for the California Oregon Power company at Roseburg, passed away in the latter city at 3:30 a. m. Saturday after a month's illness.

Mr. Ness, who was born in Smithfield, Ont., had charge of electrification of the Southern Pacific interurban system in the bay area and was employed by the East St. Louis and Suburban company in similar work before coming to Medford February 1, 1921, as general construction superintendent for the California Oregon Power company. He supervised construction of several transmission lines for the company, one of them, from Prospect to Springfield, being the longest in the company's territory.

When the Copco purchased the Douglas County Light and Water company at Roseburg in 1923, Mr. Ness was transferred to that city as division manager, and he continued in that capacity with exception of nine years when he was division manager for the Mountain States Power company at Coos Bay.

Survivors, besides his wife, include five daughters, Mrs. A. L. Hawn, of Eugene; Mrs. C. W. Wakefield and Mrs. F. C. Bash, of Medford; Miss Genevieve Ness, Roseburg, and Miss Virginia Ness, Portland; also two sons, T. H. Ness, Jr., and John Ness, Roseburg.

Funeral services will be held in Roseburg at 11 a. m. Monday, and graveside services will be held here Tuesday at 11 a. m. with interment in Siskiyou Memorial Park.

Closing time for Too Late to Classify Ads is 1:30 p. m.

### TRANSIENTS HELD FOR AUTO THEFT

Irving K. Bicknell, 37, a transient, and Earl F. Feltenberger, 39, who said his home was in Kansas City, Mo., were arrested by state police early Saturday morning and lodged in the county jail on charges of auto theft.

Their arrest followed an automobile accident on the Midway road about two miles this side of Bybee bridge, in which the alleged stolen car they were driving collided with a machine operated by Joseph E. Spayde of Ashland. The cars were damaged considerably, but nobody was injured.

State police said that Bicknell and Feltenberger admitted stealing a Pontiac coupe in Ashland Friday night, owned by Noel Taylor. They headed for Grants Pass, but got off the Pacific highway and traveled on Midway road, police quoted them as stating.

About 1:30 a. m. Saturday, police said, their car and Spay-

de's collided, and following the accident Bicknell and Feltenberger scurried away and hid in the brush about 200 yards from the scene of the accident.

In the meantime Spayde came to Medford, reported the accident and flight of Bicknell and Feltenberger to state police, and the two men were arrested in their hiding place. They gave up without trouble, and police said they were "very drunk."

### WOMAN'S FOREHEAD CUT IN ACCIDENT

Mrs. Paul Hackett of Route 4 suffered a cut forehead Saturday afternoon when the car in which she was a passenger, driven by Pauline Hackett, collided with a machine operated by Audrey Flynn of 219 McAndrews road, at Fourth street and North Central avenue.

The accident occurred, according to city police, while Miss Hackett's machine was traveling north on Central avenue and the other vehicle was moving east on Fourth street. Mrs. Hackett's head came in contact with the windshield. Both cars

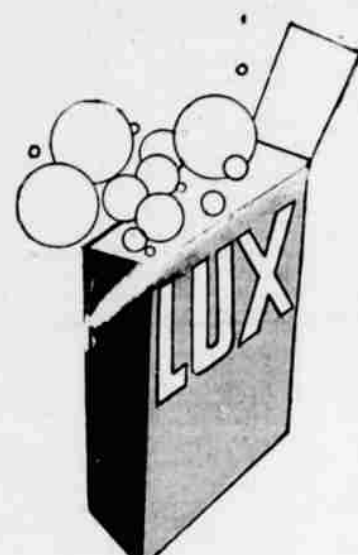

were damaged considerably. Gladys Stone, 21, and Velma Edwards, 24, passengers in a car operated by Faye L. Knapp of 108 Columbus avenue, were injured early Saturday morning when their machine sideswiped a car driven by Leona Gilliland Chisman of Ashland, at Voorhies crossing south of this city, a report on file said yesterday.

According to the report, the Knapp auto, traveling north on the Pacific highway, passed a parked truck at the same time the other machine, traveling south, reached the scene.

Mrs. S. J. Richardson of Central Point and L. N. Younger of 227 South Holly street drove cars involved in a slight accident on Front street between Main and Sixth streets Friday afternoon, a report on file said yesterday.

Autos operated by Muri Hutchinson of Days Creek and S. H. Clayton of Chicago collided Saturday morning on the Tiller-Trail highway eight miles north of Trail, a report on file said yesterday.

**Death Rehearsal.**  
La Linea, Spain, Aug. 10.—(AP)—Anti-aircraft batteries and recently-arrived airplanes at Gibraltar rehearsed today for expected air attacks.

## MANN'S

We recommend Lux for all fine washables.

Not Just Ordinary Washables But Lovely LUXABLES Featured this week at Mann's
