

### AVIATION DAY AT MEDFORD AIRPORT SET FOR MONDAY

#### Mayor Invites Public to Inspect Facilities—Guides Will Explain Agencies

In a proclamation issued today Mayor C. C. Furnas invited the public to visit the Medford municipal airport Monday to see at first hand the facilities in operation there. The proclamation sets aside August 19 as Medford Aviation Day.

During the day guide service will be available at the airport to conduct visitors on a tour of the premises. Functioning of the airport and all the agencies operating there will be explained.

The mayor's proclamation follows:

"Whereas the development of aviation in recent years has been so rapid that the industry has come to exert a profound influence on the course of events throughout the world; and

"Whereas American initiative and industry have contributed greatly to this development and should be encouraged to continue such contribution in order that the United States may retain its outstanding position in the field of aeronautics; and

"Whereas the City of Medford has contributed its proportionate share to the national development of aviation and has invested a large sum of money in its municipal airport, an investment it desires to protect to the utmost; and

"Whereas the War Department just recently designated the Medford municipal airport as a part of the national defense system and the works projects administration approved a major improvement to the airport as part of general defense plans; and

"Whereas the city of Medford must maintain its interest in aviation so that it will continue to benefit by commercial use of the airport and continue to be of service in defense plans;

"Now, therefore, I, Charles C. Furnas, Mayor of the City of Medford, do hereby designate August 19, 1940, as Medford Aviation Day in accordance with a proclamation by President Franklin D. Roosevelt setting aside August 19 of each year as National Aviation Day, and call upon all the citizens of Medford to observe the day in order to stimulate interest in aviation and further and as part of this observance to visit the Medford municipal airport during the day to see the facilities available here for handling of modern aircraft."

### TWO SENT TO JAIL FROM GOLD HILL

Joseph White, charged with entering an auto without permission of the owner, and James A. Palmer, charged with being drunk on a public highway, were each sentenced to serve ten days in the county jail yesterday by Justice of the Peace W. R. Coleman.

Both offenses were committed in Gold Hill. White entered the parked auto, and attempted to steal some milk. Before capture, he led the law a merry chase over most of Gold Hill. Palmer was unable to do any running, because of his alcoholic content.

Mersey Chavez and William T. Schaeffer, transients, charged with petty larceny, were sentenced to 30 days in the county jail. They tried to steal an auto tire from the Commercial Finance used car lot. Searched at the county jail, Chavez had \$142. His companion was "broke." They were arrested by Deputy Sheriff L. J. Walton instead of city police, as reported yesterday.

William W. Davenport and Leon R. Killian, tourists, charged with angling in closed waters, were each granted 60 days suspended sentences. They fished too close to the fish racks on Elk creek.
