## THE SPIRIT OF

by JOHN CLINTON

The fellow who lives across the street from me is an enthusiastic gent. He's a doctor, and he uses his car tempered, guy, and his greatest peeve is a squeak!

Let just one single, solitary middle-aged squawk show up in his coupe and his whole day is ruined. I met him at lunch out at the golf club Saturday and he was boozing all over the place. It seems he had not one, but two squeaks!

So on the way home I had him stop at my favorite Union Oil station and have the boys give his coupe a Stop-Wear Lubrication. I took him home in my Hispano-Plymouth.

When they brought his bus back, we rode around the block in it. And boy was he happy! I think he's going to give me a free appendix operation to show his gratitude!

For Stop-Wear Lubrication has 3 very special results. First, you can hear the difference the minute you get in the car. It's sweet and quiet like a pretty nurse. Second you can feel the difference in the way it rides, shifts and handles. And third—you can see the difference.

For the boys clean up your car inside and out—the glass shines like a gold tooth, the running boards and fuses dressed, battery, radiator and all checked, you and even the horn button and choke rods that get overlooked so many times. So, since my space is all gone—just do this: Drive in to your Union Oil Dealer and get a Stop-Wear job. Then you, too, will see, hear and feel the difference.

## BERLIN AND ROME TAKE SOUR VIEW OF CANADA PACT

BY DEWITT MACKENZIE

The Berlin-Rome brotherhood is taking a very sour and uncomplimentary view of Uncle Sam's discussions with Canada regarding defense matters of mutual interest, and his conversations with England concerning the leasing of naval bases in the Western Hemisphere.

It would seem from the Fascist and Nazi press (which, as you know, is government controlled), that Sam is up to some sort of skulduggery whereby he hopes to gain at the expense of his friends and neighbors. He has, they say, imperialistic ambitions.

The intimation is that Uncle Sam is preparing to take advantage of John Bull's tough position and appropriate British territory. That is to say Sam is planning to jump on John with both feet while the latter is down.

The Italian press is the more voluble on the subject of our taking advantage of England—perhaps having in mind to get some of its own back for President Roosevelt's historic rebuke to Italy when she entered the war just before France collapsed. F.D.R. declared that "on this tenth day of June, 1940, the hand that held the dagger has struck it into the back of its neighbor."

The United States is charged with seeking to obtain territory in the "break up" of the British empire, which the axis powers assert is near. This includes control of Canada, and Das Schwarze Korps of Berlin, organ of Hitler's black-shirted elite guard, suggests that the defeat of Britain might raise the question of American incorporation of the dominion.

This isn't the first time that such a notion has been advanced in Germany, for it has cropped up often. The fact that Italy is taking a similar line, and embroidering the position, would seem to indicate that the subject has been made a matter of common comment by the axis partners.

Lady Cynthia, only daughter of the Earl of Guilford, was

## COMPLETE PLANS FOR REGISTERING NATION'S ALIENS

Washington, Aug. 26.—(AP)—Justice department officials completed their arrangements today for the tremendous task of registering and fingerprinting an estimated 3,600,000 aliens during the next four months.

The job will be started tomorrow in about 7,300 post offices and is scheduled for completion on Dec. 26.

To finish on time, the department must average 36,000 registrations daily, because, with Sundays and holidays excluded, the registration period contains only 100 days until the deadline.

The registration law, enacted by congress as a defense precaution, requires that every alien over the age of 14 present himself at a first or second class post office or a post office in a county seat for registration and fingerprinting. Would-be citizens who have taken out their first papers must register like non-citizens.

Children under 14 must be registered by parents or legal guardians and need answer only nine of the 15 questions.

The registration questions cover personal identification; the manner of entry into this country; occupation; military service; memberships in social or other organizations, and any activity in promoting the interests of a foreign government.

The dance on Wednesday night will be more under the leadership of the Townsend Youth club, with plenty of supervision and chaperons by the older folks, these dances are always clean so no parent need hesitate in letting their young folks attend. An added feature will be an amateur program of vocal and instrumental music as well as other features. This will be during the intermission and conducted by the young folks.

Friday night is one of those famous "5th Fridays" with a supper at 5:30 followed by a good program. These events are always given a great deal of extra effort to make them good.

Sunday, Sept. 1, there will be a Townsend picnic at the Ashland park at which Chas. W. Wetterman, the national representative for the state of Oregon, will be the principal speaker.

All folks are more than welcome to attend any or all of these activities.

## HIRAM BIDS FOR ANOTHER TERM IN CALIFORNIA VOTE

San Francisco, Aug. 26.—(AP)—Campaigning moved toward a climax today for Tuesday's state primary election in which control of the 1941 legislature, Senator Hiram Johnson's bid for another term and the endorsement of a full slate of 20 congressmen were major issues.

The heaviest registration in state history, 3,782,702 voters, was eligible to cast ballots for party candidates.

Of chief interest, even overshadowing the national contests, was the fight for control of the legislature in which Governor Culbert L. Olson, a Democrat, endorsed a slate of senators and assemblymen in efforts to "purge" the lawmakers of a bipartisan bloc which defeated his taxation and relief program last year.

The governor has stumped up and down the state in behalf of his candidates seeking nominations for all 80 assembly posts and 20 of the 40 in the state senate.

Olson also has appeared on the platform at rallies for John Anson Ford, who is contesting the Democratic nomination for U. S. senator with the veteran Republican incumbent, Hiram Johnson.

Under California law, primary candidates may seek the nomination of more than one party, but must first win nomination by their own party to stay in the running. Nomination by both major parties is tantamount to election.

They will participate in ceremonies at Salem in which McNary will be officially notified of his selection as Republican vice-presidential candidate.
