IRISH EVANGELIST GIVES WAR VIEW

Rev. Peter Connelly spoke last night at the Medford Church of the Nazarene. Holly at First, on the topic, "The Futility of Hitler's Dream." He read from Daniels, chapters 2 and 7, and stated them to be parallel in their prophetic truths.

When asked last night if Britain wanted peace, the fiery Irishman replied, "Not until nazism and its allied powers are utterly conquered."

The speaker was asked last night if England had been disappointed in the United States, to which he replied, "How could you stand by without a shock of disappointment, when you were in trouble, and your brother stood looking on with his hands in his pockets?"

Rev. Connelly will conduct another quiz and answer period tonight at 7:30. This session proved intensely interesting to a large group last night. He speaks this evening from the topic, "Three Things You Ought To Know." The main auditorium was filled last night to hear the Irish evangelistic statesman. The public is invited to hear him this last night of the series.

Under the contract, \$1500 was payable to Mr. Reames on demand while \$200 was to be paid monthly from last February 1, the complaint stated. Only \$213.73 has been paid, according to the complaint.

Mr. Reames also asked the court for a writ of attachment.

UNITED AIRCRAFT TO BUILD 17,000 ENGINES FOR NAVY

Washington, Aug. 29.—(P)—An agreement was reached between the navy and United Aircraft corporation today for the manufacture of 17,000 airplane engines for both the army and navy at a cost of \$160,000,000. Announcing the agreement

at a press conference, Secretary Knox said that it had the full approval of the war department and would cover the entire requirements of both army and navy from United Aircraft for the 1941 and 1942 fiscal years.

A formal contract covering the agreement, Knox said, will be negotiated as soon as funds for the engines are provided in the \$5,008,000,000 defense appropriation bill pending in congress.

Meanwhile, Knox said, United will proceed immediately with a \$2,500,000 expansion of its plant at Hartford, Conn.

Rear Admiral John H. Towers, chief of the navy's bureau of aeronautics, added that the navy would purchase and retain title to \$7,000,000 worth of machine tools to equip the extended plant.

The agreement for the production of Pratt & Whitney engines by United—constituting the largest engine order yet made under the defense program, was the second major military plane purchasing development announced within 24 hours. The army disclosed yesterday that it had signed contracts for 850 training planes and 20 transport ships to cost \$14,410,000.

The navy signed the agreement under a system whereby it sponsors some aircraft manufacturers and the army sponsors others, Knox explained.
