

### PREDICTS WORLD'S 1941 WHEAT CROP TO BE LIKE 1940

Washington, Aug. 29.—(P)—World wheat acreage in 1941 probably will remain the same as this year, the bureau of agricultural economics predicted today.

Prices in this country should hold "to a considerable extent independent of prices in other countries" as long as the government loan and subsidy program continues, the survey said.

The world acreage, excluding Soviet Russia and China, was estimated at 275,000,000 acres. Unless it is reduced or the yield is small, large world supplies will continue, the bureau reported.

It predicted U. S. production would reach 750,000,000 bushels from 82,000,000 acres leaving "about 50,000,000 bushels for export or addition to carry-over after deducting a 10-year average disappearance of about 700,000,000 bushels."

"On this basis," the bureau continued, "the carry-over at the close of the 1941-42 season would be very little different from that at the beginning, when it is expected to be 300,000,000 bushels or more. Large prospective carry-over stocks on July 1, 1941, assure ample supplies of milling wheats for the year beginning at that time."

The domestic wheat supply based on Aug. 1 crop conditions was set at 1,045,000,000 bushels, including 781,000,000 bushels from the 1940 crop and a carry-over of 264,000,000 bushels. Domestic disappearance was estimated at 700,000,000 bushels, leaving 345,000,000 bushels available for export or carry-over as of next July 1. Export prospects were described as "very uncertain."

World supplies for the year opening July 1 were forecast at 100,000,000 to 150,000,000 bushels below the record supply of 5,445,000,000 bushels a year earlier. The world carry-over on July 1, 1940, was believed about 215,000,000 bushels larger than the 1,175,000,000 bushel carry-over on July 1, 1939.

### MINING ADVANCES IN STATE LEADS BASIC INDUSTRY

Portland, Aug. 29.—(P)—Mining advances probably have been more rapid than any other basic Oregon industry, Earl K. Nixon, director of the state department of geology and mineral industries, reported today.

A federal bureau of mines survey showed the state's production of metallic minerals and ores mounted 16.6 percent in value from 1938 to 1939. Nixon predicted a 50 percent gain this year compared with 1939.

Including the value of non-metallic production for this year of about \$6,000,000, Oregon's total mineral production will be well in excess of \$10,000,000—perhaps nearer \$12,000,000, Nixon explained.

The actual value of gold, quicksilver, lead, zinc and copper produced in Oregon last year was \$3,828,243 compared with \$3,282,970 in 1939. Non-metallic mineral production, including limestone for cement, stone, gravel diatomite and others cannot be exactly stated until later, the director said.

Nixon traced the rapid advance to the sharp rise in quicksilver production to an estimated value of about \$1,650,000 in 1940 and to the increase in the number of gold dredges now in operation. The Bonanza mine near Sutherlin is the largest quicksilver producing mine in the United States.

Counting gold producers only in 1939, there were 116 underground quartz producers, 15 dredges, 13 non-floating washing plants, 76 hydraulic gold producers, 13 underground drift placers and miscellaneous to bring the total placer producers to 201 for the year.

Baker county was the largest gold producer and Grant county second, Nixon's study revealed.

### GROWERS BENEFIT BY FREIGHT CUT

Seattle, Aug. 29.—(P)—A. M. Groseclose, chairman of the northwest perishable traffic bureau, estimated today Washington and Oregon pear growers will save \$112,000 this year through a railroad rate cut.

The rate revision, he said, was made possible by raising the minimum shipment to which the rate applies from 34,000 to 36,000 pounds.

"The railroad's return is actually increased from \$1.20 a car—from \$510 to 11.20 percent—but the grower gets the benefit of the cut in the box rate, which is all that he's interested in. It's just as easy to load 36,000 pounds into a car as 34,000."

He said the new rate of \$1.42 per 100 pounds would be a cut of four cents on every 50-pound box.

### GROUP IN INDIA TO DEFY ENGLISH

Bombay, Aug. 29.—(P)—The first move of a new civil disobedience campaign against Great Britain for refusing to grant India immediate independence was begun today at Cawnpore, home of the Indian nationalist leader Jawaharlal Nehru.

Defying the government's ban against organized drill by volunteer societies, volunteers of the All-India Congress, which Nehru heads, decided to offer themselves for arrest in groups.

Eleven congress volunteers drill daily in Cawnpore's Shradhanand park.

**AS FREE AS A FLEECY CLOUD**

Get leg-freedom for your sports. Men everywhere are wearing HANES Crotch-Guard Sports for their games. This comfortable garment also helps them keep feeling spruce at work.

Gentle, athletic support is provided by the HANESKINT Crotch-Guard, with its convenient fly-front. The crotch is wider... and won't bind. All-round Latex waistband.

HANES Crotch-Guard Sports and a HANES Undershirt make a perfect sports-team. Have your HANES Dealer show them to you today.

### DOWNWIND TURNS CAUSE ACCIDENTS

Portland, Aug. 29.—(P)—State Aeronautics Director Leo G. Devaney blamed two recent Oregon airplane crashes, which claimed one life, on "downwind turns with insufficient flying speed."

Neither crash would have occurred had the pilots flown into the wind as they came down to land, he said in an official report today.

One crash, at Salem, Aug. 18, killed R. T. Bennett of Portland.

**Joe Singer Irked**  
Portland, Aug. 29.—(P)—The Republican doorkeeper of the U. S. senate reached his home state yesterday, furious at the weather because it delayed his plane and

caused him to miss the McNary notification ceremonies at Salem Tuesday.

**1940 Wheat Loans**  
Washington, Aug. 29.—(P)—Loans amounting to \$59,407,169

on 82,517,510 bushels of 1940 wheat were announced by the commodity credit corporation up to Aug. 23.

**Weather**  
Northern California: Fair to

night and Friday, but fog on coast; slightly cooler in delta region Friday; moderate north-west wind off coast.

Berlin, Aug. 29.—(P)—It's no longer "gute nacht" in Berlin;

It's "Bolona." Thought up by a Berlin wit and immediately adopted by the populace, "Bolona" stands for "bomense nacht"—bombless night.
