

FOREST CAMPING AT ITS BEST FOR HOLIDAY WEEK-END

Mountain Scenery Now Particularly Beautiful and Cool Nights Are Zestful

The following recreational bulletin was issued today by Rogue River national forest headquarters:

"Mountain scenery has been especially beautiful the past few days because of exceptionally clear atmosphere. Camping, therefore, should be at its best for the holiday week-end.

"Crisp fall weather is setting in throughout the high mountains and campers should be prepared for cool nights. Hiking is also more attractive than during the heat of the summer.

"The evergreen blackberries in the Apelegreen district are now ripe and, while the crop is rather light, there are many places near roads where good picking is available. A few cattered huckleberries may still be found in the Union Creek and Butte Falls districts.

"Special events have been planned at Lake o' Woods for the Labor Day holiday, including dancing and other attractions.

"Roads Dusty, Rough" "Most roads are now dusty and in many places quite rough because of the heavy use throughout the summer. More leisurely travel is therefore advisable. Slower travel will also permit observation of a surprising number of interesting features usually not noticed in the forest, such as the wild birds and small animals, the many different species of trees and plants and the stream flows. Attention of motorists on the Diamond Lake highway is invited to the ancient deposits of charcoal and burned logs which were buried thousands of years ago by layers of volcanic ash which are plainly visible in the Foster creek cut, six miles above Union Creek. These deposits were over 100 feet below the surface until the highway excavation a few years ago exposed them along a half mile of the highway.

"Fishing on the forest is good in only a few places. The south fork of the Rogue river near South Fork forest camp and middle fork above the Prospect road have been fairly good. Big Butte creek is yielding a few limit catches of small rainbow on royal coachman and yellow-bodied gray charles. Lake fishing in the Butte Falls district is mainly poor. Fishing in the upper north fork of Rogue river has been poor with no limit catches in the past week. At Fourmile lake fishing for silver-sides has been excellent, limit catches being made in mornings and evenings by still fishing with cluster eggs. Rainbows have been bitin on trolling with trout-tremos. North fork of Little Butte creek is fair for small rainbow fishing with grasshoppers.

"Good Fishing in River" "Trout fishing the entire length of Rogue river from Prospect to Grants Pass has been excellent. Best lures are golden grouse, orange blue and grey monkey. A few salmon are moving in on the spawning beds and single egg fishing will soon be good. Steelhead fishing is now the best it has been this season because of cool nights. The best locations are Dowden falls, Gold Ray and Happy camp. Best flies are gray drake, ginger palmer, and queen will glory.

"Almost every year the worst fires in the Rogue River national forest occur in September. Recreators are therefore urged to be extremely careful with fire while on the forest until rains relieve the present critical situation."

NAZARENE CHURCH CHIEF TO SPEAK

Dr. H. V. Miller, recently elected general superintendent in the Church of the Nazarene, will be heard for the first time in Medford Sunday, September 1, at 3:00 p. m. when he will speak in the Church of the Nazarene, Holly at First. Dr. Miller will be accompanied by Rev. E. E. Martin, district superintendent of the North Pacific district.

Prior to his elevation to the highest post in the denomination, Dr. Miller served for several years each as district superintendent in the New York and New England districts. He was six years pastor of Chicago First church and held the chair of theology and Biblical literature at Northwest Nazarene college, in Nampa, Idaho, when elected general superintendent.

Buying stimulated by strength in securities and some purchasing of mills helped to start the upward movement which gained momentum as previous short sellers covered accounts.

HOUSE MINORITY HITS DRAFT BILL AS UNNECESSARY

Washington, Aug. 30.—(AP)—Pre-debate skirmishing opened up in the house today on the peacetime conscription bill, with a group of foes assailing it as "unnecessary" and its advocates predicting that it would ride through by overwhelming approval by the end of next week.

The attack was incorporated in an eight-man minority report filed on the revise version of the Burke-Wadsworth compulsory military training measure which was approved yesterday by a majority of the members of the house military committee.

Actual debate is scheduled to start Tuesday on the house bill, which differs in one vital particular from that passed by the senate. The house measure would require male citizens from 21 to 44 to register for possible service, whereas the senate age bracket was 21 to 30.

Leaders saw a hot fight in the offing on the age question. The minority report attack on the Burke-Wadsworth bill declared "that this proposal and other inevitably to follow to conscript manpower, conscript the farmers, conscript industry, conscript labor to run industry and conscript the wealth of the nation is not only unnecessary at this time to adequate defense of the country, but that it is a distinct and dangerous departure which will lead ultimately to the destruction of the American form of government in a totalitarian, military economy."

Wall St. Reports

New York, Aug. 30.—(AP)—The stock market, which often does the unexpected, pulled a surprise rallying rabbit out of the hat today.

The list was mildly improved at the start but subsequently slowed and prices wavered. Buying in rails then touched off a runup in steels, motors and other industrial leaders. Gains for favorites ranged from 1 to more than 2 points, with dealings faster than in the past two weeks.

Despite intermittent sluggishness, volume stepped up to around 550,000 shares, or about double that of the preceding session. Quotations were shaved in many cases at the close by a little profit taking on the bulge.

We Support the Standard of Living Labor Is Eager to Maintain

America has long glorified, and the world has envied, the high plane of living made possible in this country. America has natural wealth and an enviable position on the map, but without the work of honest labor this country could not be possible.

For years we have fought the battle for a living wage and Sundays and Holidays off for food store employees. Most stores say they want to close. We are standing behind our guns and continuing our policy of fair treatment for labor. Food clerks enjoy a double holiday—especially when they honestly have it coming. Let's all observe Labor Day next Monday!
