Importance of Eugenics! To the Editor:

Medicinal research, for many

years, has continued ever to lengthen our expectancy of life.

Inhabitants of the world's most

highly civilized country, Swe-

den, now, by sheer force of ap-

plied science. live practically double the years of the average

We, however, have done very little in applied human genetics.

We take care of the improve

ment of everything from pigs to poultry, from prunes to pota

ocial inadequates.

An example of this is haemo

philia, a bleeding disease, promi-

nent in European royal families, notably the Spanish, the Rus

Kelly's Comment

From Washington Sawdust Charcoal Unsatisfactory

Defense Metals Land at Tacoma

Gold Beach Door To Ore Supplies

By John W. Kelly ____ Washington, D. C., June 4.—
A very good contract with a Puget sound sawmill to make charcoal from hog fuel has gone sour. The charcoal didn't work. Now, each month, an American Mail liner docks at Tacoma and discharges 500 tons of charcoal so fine that every time a burlap bag is dropped a veritable cloud of inky dust floats up. This charcoal is made from the shells of cocoanuts and is exactly what the war department requires. The idea of utilizing sawdust toes, without thinking of human from northwestern sawmills was excelient until the domestic char-

coal was tried. When the army or navy wants a thing they want it regardless of civilian needs. The sawmill sian. It passes from mother to son. An eminent historian re-cently declared that if a certain queen had not been a car-rier of this disease, neither the Bolshevik revolution nor the this year. Ordered American Mail to bring in 1,200 tons. It was a big order and the little plants in the cocoanut groves of the Philippines are working day and night. The liner had portance. Spanish Civil War would ever Humanity, despite this terrible war, stands at the threshold of maryellous progress because rewar, stands at the intersoid of day and night. The lines had permarkellous progress because recent research has given us power to eliminate our weaklings, to an onight. The lines had provided the first of the up at Manila until 500 tons were accumulated. Fine and powdery, the stuff blows accelerate the birth rate of our highpowers.

INFORMED quarters" in Rome accumulated. Fine and powdery, the stuff blows are everywhere and the crew must press the belief that Crete will go around with broom and dust be used as the springboard for Since we are a democracy, this must commence with every thinking citizen reading up on in ges masks. eugenics. Any good librarian will suggest worth-while books.

AIRCRAFT CO-OP IS COAST PLAN

Seattle, June 4. - (A) - The Boeing Aircraft company an-nounced last night that three huge west coast aircraft man-ufacturers would establish a "patriotic cooperative" to produce Boeing B17E bombers in all their plants.

Other firms affected will be the Douglas Aircraft company of Santa Monica, Cal., and the Vega Airplane company of Bur-bank, Cal. The Vega firm is a subsidiary of the Lockheed Aircraft company. The announcement said each of the factories would turn out

complete Boeing bombers and that several other manufac-turers would be given sub-contracts. It explained that the cooperative was established to help meet the demand for the four-engined, long-range bombers designated by the war desary for national defense and for aid to Britain.
