ACCUSED HUNCHBACK IN SUICIDE ATTEMPT; PUT IN PADDED CELL

Spokane, Wash., June 11.—(P)—Gnome-like Alfred H. Wells, 31-year-old ex-convict from San Bernardino, Calif., last night tried to keep a promise to Spokane jailers to end his life and wound up by spending the night in a padded cell.

City Jailor Hubert Hoover reported Wells attempted to strangle himself with strips torn from his shorts only a few hours after he was confronted by three officials from San Bernardino, where he is charged with the triple killing of his half-brother, David Raymond Wells; David's wife, Jean, and a visitor, Rose Deestree, 17, whom he had never seen before.

Sheriff Emmett Shay, Deputy John P. Foster and Dist. Atty. Jerome B. Kavanaugh, all of San Bernardino county, reached Spokane late yesterday after a two-and-a-half day automobile trip and immediately put Wells through a two-hour grilling, during which the district attorney said "he claimed he had no recollection" of the killings.

Sheriff Shay, however, added "he's guilty as hell. We tripped him up in a dozen places."

Bees Swarm In Dentist's Office

Puyallup, Wash., June 11.—(P)—A swarm of bees invaded the dental offices of Dr. E. R. Lynam here today, forcing his patients to retire to the street. The bees also stopped traffic on the main street.

After local townsmen, versed in the art of bee-keeping, removed the swarm, the dentist passed word around he was once again "open for bee sness."

'UNCLE DAN' BEARD, CO-FOUNDER OF BOY SCOUTS, SUCCUMBS

Suffern, N. Y., June 11.—(P)—Daniel Carter Beard, one of the founders of the Boy Scouts of America, died today.

"Uncle Dan," as he was affectionately known by millions of Boy Scouts, would have been 91 years old on June 21. He had been ill since April 20 when he contracted a cold at his 14-acre estate here.

The venerable scouter and naturalist, loved the world over by men who used to be Boy Scouts and by the boys themselves, died in his quiet rustic woodland home, "The Brooklands."

His daughter, Mrs. Barbara Price, was at his bedside. Death resulted from a heart condition which was complicated by old age.

His son, Daniel Bartlett Beard of Omaha, Neb., was reported flying here.

"Uncle Dan" was chief to 1,400,000 Boy Scouts of America whom he helped Ernest Thompson Seton found in 1910, two years after Sir Robert Baden-Powell formed his scouts in England.

WONDERLAND HEAD PREDICTS BANNER TOURIST SEASON

banner tourist travel for 1941 danner tourist travel for 1941 were brought to the Medford Rotary club Tuesday by Tom Stanley, general manager of the Shasta Cascade Wonderland association, guest speaker at the luncheon meeting of the club at the Hotel Medford, who was introduced by H. L. Brown, program chairman.

The four major industries of the Wonderland and their income to the vast area were listed by the speaker as agriculture, \$40,000,000; stock raising, \$5,000,000; mining, \$6,000,000, and lumbering, \$30,000,000. Another income source of importance is the tourist business, Mr. Stanley said, bringing \$11,665,000 to the Shasta Cascade Wonderland in 1936 and \$21,643,000 in 1940.

Tourist travel is one activity that takes nothing away from such an area as this, the Wonderland manager reminded his audience. In the nine Oregon and California counties embraced by the association, one out of every six dollars of income has its source in this highly important tourist industry, a ratio more favorable than other coast areas.

In discussing the comprehensive advertising and promotional program of the Shasta Cascade Wonderland association, Mr. Stanley emphasized the excellent record of the organization by citing steadily mounting population and retail sales figures.

Following the Rotary meeting Mr. Stanley visited the Medford airport and site of the proposed army cantonment here.

District Attorney George W. Neilson reported Sullivan had made a signed statement admitting the charge.

DE VALERA BALKS U.S. USE OF PORTS

London, June 11.—(P)—Irish sources said today that Prime Minister Eamon de Valera of Eire had refused to permit the United States to use either seaports or airports in Ireland as a stepping stone for transportation of war supplies to Britain. The Irish prime minister, with the memory of bombs dropped in Dublin May 31 still fresh in his mind, was said to feel that use of any part of southern Ireland for such purposes would open the country to German air attacks as a legitimate military target.

It was understood, however,

that he is agreeable to establishment of a terminus in Ireland for trans-Atlantic passenger service.

The United States was said reliably to be speeding arrangements for a direct air link with Britain because of fear that German moves in the western Mediterranean and Atlantic soon might sever the present connection via the Azores and Lisbon.
