

## SKYLINE HIKE BY PORTLAND BOYS TO CRATER ENDED

Crater Lake, June 21.—(Spl.) Five students of the Grant high school of Portland rested here today after a long hike through the woods from Mount Jefferson to Crater Lake national park. The boys are Frank Smith, George Walker, Dick Savinar, high school seniors, Larry Kramer, a junior, and Norman Vonborstel, who was graduated this month.

The youths left Breitenbush lake, about eight miles north of Mt. Jefferson, on June 7 and hiked down the Skyline trail. They reached Crater lake in 12 days, arriving here June 19. Along the way was made of the shelters erected for such purpose at intervals on the Skyline trail.

The boys said the trail was exceedingly wet and deep snow in the vicinity of the Sisters made it difficult to keep on the trail. The inclement weather made the hike harder than it would have been otherwise but it did not dampen their enthusiasm, they declared. They singled out Paradise park near Mount Jefferson as a thing of beauty.

The boys will return to Portland by motorcar.

## KILLER DEFIANT IN GAS CHAMBER

Canon City, Colo., June 21.—(P)—With the same philosophy of defiance he learned from 76 years of life on the western frontier, Mancos Jim hooted at death in Colorado's lethal gas chamber last night.

A blood curdling Navajo Indian yell burst from his lips as the prison chaplain left the chamber. When the deadly fumes crept around him, he slipped his wrist from his leather bonds and ripped the merciful blindfold from his eyes.

With great gulps he sucked in the gas. Then he gasped and died.

He was convicted at Cortez, Colo., Dec. 8, 1939, of the murder of Lynn Dean, 25, Mancos town marshal who was attempting to arrest him for drunkenness.

## NO SOVIET-NAZI WAR SAYS DAVIES

Madison, Wis., June 21.—(P)—Joseph E. Davies, former United States ambassador to Russia, and Belgium, does not believe Russia and Germany will fight.

"Russia and Germany will not fight because it is to the advantage of neither one to have war with the other," he said at a press conference. "Germany probably can get what she wants from Russia without war, because Stalin must fear the overthrow of his government if war comes."

If anyone doubts the census bureau's recent statement that in spite of all scientific forecasts to the contrary the American birth rate is rising, let him consult Dr. W. G. Bishop.

Listen to this: In 10 hours and 15 minutes Friday Dr. Bishop officiated at five births. That established a new daily record for him and if you want to toss in the baby he delivered the night before, chalk up six deliveries within 24 hours.

With professional modesty Dr. Bishop declined to speak when confronted with these vital statistics but a fellow physician vouched for them.
