FURTHER HIKE IN DEFENSE TAX ACT LOOMS IN HOUSE

Washington, July 12.—(AP)—Individual house members may seek to hike the pending $3,504,000,000 tax increase bill still higher to help meet the $8,093,000,000 supplemental defense appropriations asked by President Roosevelt in the last two days.

These huge spending requests, for the army, navy and maritime commission, came in after the house ways and means committee had completed a tentative draft of its new 1942 tax program. Moreover, new lend-lease billions soon are to be sought by the administration.

Thus, some ways and means committeemen agreed with Secretary Morgenthau today that the whole fiscal situation may have to be re-examined before the committee takes final action on the tax bill.

Other members warned against inflation and still others felt that since the new appropriations—which will boost this session's total to more than $40,000,000,000—will not be spent in one year—the tax program could be spread over two or three years and not loaded on the taxpayers all at once.

President Roosevelt told his press conference yesterday that the new spending requests need not necessarily upset the present tax legislation because the nation was in for a new tax bill every year.

Commenting on this today, Rep. Martin (Mass.), the house Republican leader, said, "We'll have a new tax bill every six months if they keep spending the money."

The tax bill to come before the committee for final review soon would raise $1,154,500,000 in additional revenue from individual income taxpayers; $1,332,000,000 from corporations, $884,200,000 from excise levies, $113,700,000 from estate and gift taxes, and $20,000,000 from so-called withheld earnings of non-resident aliens and foreign corporations.

MEDIATION—William H. Davis (above), expert lawyer on patents, is new chairman of the national mediation board. He succeeds Clarence A. Dykstra who resigned the post to return to his job as University of Wisconsin president.

Jury Dismissed

Detroit, July 12.—(AP)—Federal Judge Arthur F. Lederle this afternoon discharged a jury of eight men and four women that had deliberated five days without reaching a verdict in the mail fraud trial of Frank D. McKay, Republican national committeeman from Michigan, and 11 co-defendants.

Salt Lake Named

Washington, July 12.—(AP)—Secretary Ickes announced today Salt Lake City, Utah, had been selected as the new headquarters for the grazing service, the first government agency to be moved from Washington to relieve congestion caused by the intense defense activity.

RECORD—Ceaselessly since 1920 Charles Kettering, General Motors research chief who invented the auto self-starter, has perfected devices for the home and for industry.

SCOUTS DID THEIR GOOD DEEDS—Young "Cubs," too young for such risky deeds of valor, admire the decorations newly received by these Boy Scouts from the Bermondsey section of England—awards given for devotion to duty during enemy air attacks. Sir John Shea, scout commissioner for London, presented the medals. At the left is Scoutmaster Ernest Burgess.

Parents of Selectees, Inc. Pledged to Uphold Fairness

South Bend, Ind. (U.P.)—Shorn of control over their sons in military training, South Bend parents of selectees believe they should have something to say in the administration of selective service.

To make their parental influence felt they've organized The National Parents of Selectees, Inc., a group with the avowed purpose of fighting for the impartial conduct of the draft.

The organization adopted a militant attitude after hearing Vernon R. Helmian, secretary of a South Bend draft board, warn that corruption in any phase of the selective service system will undermine public confidence and seriously cripple the national defense effort.

Spurred by the warning, the organization announced that it would investigate all complaints against administration of the draft and work with the prosecutor's office and the grand jury in prosecuting neglectful or willful violations of regulations.

The National Parents of Selectees, Inc., had its inception in South Bend, but leaders and members hope its organization and purpose spread throughout the nation.

FLAMES DESTROY KNAPPTON PLANT

Astoria, Ore., July 12.—(AP)—A fire of undetermined origin wiped out the 60-year-old Knappton mill, on the north side of the Columbia river opposite Astoria, today.

More than 1,000,000 feet of cut lumber was destroyed in the blaze which started in the planer mill, spreading rapidly and almost trapping Casper Niemi, workman, atop the burner. Niemi jumped 15 feet to the ground.

The flames destroyed the office building, yard office, oil house and most of the lumber after burning through the principal water main, draining storage tanks and leaving fire fighters helpless.

Hundreds of spectators in Astoria watched the fire, which sent flames hundreds of feet into the air.

The fire was brought under control before spreading to nearby timber.

Flames six years ago destroyed the town of Knappton and loss of the mill virtually eliminated the source of employment for remaining workmen, who expressed doubt that the mill would be rebuilt.

Russia occupies about one-seventh of the land surface of the globe.
