## FARM CREDIT CO-OP TO AID DEFENSE BY PURCHASING STAMPS

Members of the Medford Production Credit association are buying their "share in the United States" through the purchase of defense savings stamps, which went on sale at the association's office in Medford today.

Bren H. Starcher, secretary-treasurer of the association, announced the local farmers' credit cooperative, a unit of the Farm Credit Administration, was handling the stamps as its part in the nation-wide program to encourage investment by farmers in defense savings.

"There are three reasons why farmers should invest in defense savings," Starcher pointed out. "First, it is a good thing for the country to have as large number of its people as possible own 'a share' in their government. Second, wide investment in defense savings will have a steady influence on the cost of living. Third, in any time of emergency or uncertainty, it is wise for the people to save money."

Stamps may be purchased in denominations of 10, 25 and 50 cents, \$1 and \$5, and may be exchanged for defense savings bonds when the stamps total \$18.75. Such a bond has a maturity value of \$25 in 10 years.

## BARTLETT PICKING SEEN NEAR AUG. 1

Based on the blossom-to-harvest theory of 120 days, picking of the Bartlett pear crop should start the end of next week, according to Assistant County Agent C. B. Cordy. However, he doubts if any will be ready by that time, and figures harvesting will start full swing around August 1.

Threshing of vetch seed started today in many fields, and County Agent R. G. Fowler said it would be one of the best grain crops of the valley. Threshing and binding of wheat, oats and barley is underway throughout the county.

## RATIONING NEAR ON RAW MATERIAL SAYS HENDERSON

'Party Is Over' As Far As  
Retail Sales Boom Concerned, Is Warning

Atlantic City, N. J., July 14.—(AP)—Leon Henderson asserted bluntly today that "the party is over" as far as the retail sales boom occasioned by defense spending is concerned. The administrator of the Office of Price Administration and Civilian Supply said in a speech prepared for a meeting of the New York Housewares Manufacturers association that defense needs would require rationing of the materials which go into manufacturing articles the public has been buying in ever-increasing amounts.

It already has become apparent, he said, that practically no aluminum would be available for civilian use after military needs were met and "it is becoming evident now that the amount of copper, steel, nickel, zinc, chrome, manganese and a number of other materials required for armaments is going to be so great that we won't have enough left over for consumers durable goods."

This, he continued, "means rationing, not by cards at the stores but at the raw materials line, and rationing means that someone is going to get hurt." Henderson said there was grave danger of inflation and that the Office of Price Administration was going to "bargain ahead" in the fight against it.

## HEN SPECTACLES HALT CANNIBALISM

Lynsiville, Wis., July 14.—(AP)—The 100 hens belonging to W. L. Tallmadge strut in their henhouse with spectacles fastened before their eyes by means of a tiny aluminum bar.

Tallmadge says the red celluloid lenses have corrected a cannibalistic trait characteristic of even the most aristocratic of hens.

Spots of blood on a hen make other hens "see red," he explains. They attack the injured bird en masse. The rosy lenses,

making all objects appear red, have eliminated this cannibalism, Tallmadge claims.

## OFFICER FICHTNER INJURED BY HORSE

City Traffic Officer Clyde Fichtner was confined in Sacred Heart hospital today with a badly bruised and sprained right knee, the result of being kicked by a horse Sunday morning near Hamaker meadows about 15 miles from Union Creek.

Officer Fichtner was accompanying John Day and Cecil Hunt to Hamaker meadows to salt cattle, and the trio were leading three horses up a steep hill. The policeman apparently got too close to the horse in front of him and it kicked back, striking Fichtner on the knee.

His two companions loaded Fichtner on one of the horses and took him to Union Creek, where he was placed in a car and brought to the hospital.

## PRINTER OWNERS BUY BUILDING AT 407-409 EAST MAIN

James W. Grigsby and Paul A. Godward, owners of the Klocker Printery, 28 South Central avenue, today announced purchase of the Sparta building annex at 407-409 East Main street from the Jackson Investment company, and said they would move their establishment to the new location July 26 and 27. Amount of money involved in the transaction, handled by The Wahl Agency, was not disclosed.

Mr. Grigsby said the Klocker Printery would occupy the space at 407 East Main street, with 409 East Main to be rented. The annex structure is of concrete, with a 52-foot frontage on Main street. It is 96 feet deep. A partition will be placed between the part to be occupied by the Printery and the part to be rented, Mr. Grigsby stated.

The owners plan to install a new automatic cylinder press and other new equipment after they occupy their new location, which will provide considerable more space than that at their present location.

Mr. Grigsby and Mr. Godward purchased The Klocker Printery from Mr. and Mrs. A. J. Klocker on March 1, 1938, after the latter had operated the business for 25 years at the same location. Mr. Grigsby has been in the local printing business for 18 years; Mr. Godward 20.

The Jackson Investment company is comprised of Al Littrell, Roland Hubbard and George Hunt.

The annex, vacant at present, was formerly occupied by Cupp's furniture store.

## HIT-RUN DRIVER INJURES WALKER

State police, the sheriff's office and city police of southern Oregon and northern California were today searching for the hit-run driver of the car which about 10 p.m. Saturday struck Carl Lewis Margreiter, 41, of Ashland Route 2, box 50, while he was walking on the Pacific highway three-quarters of a mile south of the Talent junction.

Knocked unconscious by the impact, Margreiter was taken to Ashland Community hospital suffering from a two-inch laceration above the left ear and an abrasion on the left hip, evidently caused by the car's blow. His attending physician reported the injured man was not seriously hurt.

State police said that Margreiter apparently was walking south toward Ashland, and was on the paved portion of the highway, when he was struck. When discovered by an unidentified passing motorist, Margreiter was lying on the pavement on the south side of the center stripe. Police found bits of glass on the north side of the highway, apparently from a shattered headlight.

## SUES TO BREAK TIMBER CONTRACT

Mabel C. Bruce has filed a suit against P. O. Leitherer for annulment of an agreement for logging of timber on her land in the Butte Falls-Prospect district.

The complaint sets forth that last September she entered a contract with the defendant for sale and purchase of the timber on her land. Part of the contract called for construction of a logging road to reach her land, as well as other parcels in the same area where Leitherer had contracts.

In April of this year, work was started on the road, but not completed, the complaint avers.

In a few days, an estimated 130,000 feet of timber was cut, and not hauled away. It is claimed the logs were left to deteriorate, and impair the property.

The plaintiff further claims she has requested the return of the original agreement from the defendant and it has not been forthcoming.
