STRIKE SLOWS UP DEFENSE EFFORT AT LOS ANGELES

Los Angeles, Sept. 4.—(AP)—Upwards of 200 machinists on three national defense jobs in Los Angeles harbor were idle today as the result of a dispute declared by a union spokesman to involve two AFL trades.

Work was slowed on eight cargo vessels being built at the Los Angeles Shipbuilding corporation. Machinists also were out on a construction job at the Terminal Island naval base and on extension of the Los Angeles harbor breakwater.

Stanley Stearns, business agent for an auto mechanics' local, said the dispute was between the metal trades and building trades departments of the AFL. He declared members of the machinists' union had been denied certain work that had been taken over by the AFL Operating Engineers' union, affiliated with the building trades department.

Stearns said the situation in dispute affects only the two construction jobs and that the mechanics stopped work at the shipyard in sympathy.

OREGON, ARIZONA CROPS HIT MOST BY SHORT LABOR

By the Associated Press

Soldiers on furlough in Oregon have been called upon to volunteer as harvest hands on a western farm front beset by a growing shortage of field workers.

The shortage, caused by the draft and by mushrooming national defense industrial payrolls, now is acute in Oregon's hop, prune and bean growing areas and Arizona's cotton and melon districts.

Most other midwest and western grain and fruit states are getting through this year's harvest without major difficulty, although the margin is close.

Said Bernard Teets, Colorado employment security director, speaking for Colorado as an example:

"If this national defense emergency keeps on, and industrial jobs multiply at the rate they have, I wouldn't care to predict what the farm labor situation will be next year. It may be a widespread problem."

In corn-growing Iowa, farm wages have risen substantially because hands are considerably fewer.

The Oregon situation was made more critical by fast ripening crops.

Earl Maharg, Arizona Farm Bureau Federation secretary, hastened to Washington seeking authorization to bring in 18,000 laborers from Mexico to help harvest \$28,000,000 in cotton, melon and lettuce crops.

In Colorado, Teets said, migrant workers from Kansas, Oklahoma and New Mexico did not show up as usual to help pick the western slope peach crop. Growers recruited pickers in Denver, promising rail fare to and from Grand Junction, an 800-mile round trip.

There are no fish in the Great Salt Lake.

PORTLAND HUNTER LOST COOS BRUSH

Marshfield, Sept. 4.—(AP)—Forest rangers and hunters searched the densely wooded South Coos river country today for James A. May, Portland, believed lost while hunting elk.

H. A. Rust, Blachley, told Lee Kusch, state elk checker at Marshfield, that May made arrangements to hunt with him and promised to meet him at camp. May checked into the hunting area Aug. 30 and was seen by another hunter at the Rust camp but apparently went on into the woods.

Kusch said he had not checked out. May had decided to hunt elsewhere, killed his own elk and returned home with it before becoming alarmed over May's non-appearance.
