

JARMIN TO OPEN PENNY-WISE DRUG STORE SATURDAY

New Concern Located At 323 East Main—Fountain In Connection.

Jarmin's Penny-Wise Drugs, Medford's newest cut-rate drug store, will open at 323 East Main street in this city Saturday, according to an announcement today by Marc B. Jarmin, owner and operator. The new store, modern in every detail and replete with prescription, drug, toiletry, gift and candy departments, will make its debut tomorrow morning and a store-wide grand opening sale will be featured.

Marc Jarmin came to this city in 1925 and associated himself with Charles Wood in the operation of a drug store at Sixth and Central streets. This concern later moved to Main and Central streets before the partnership dissolved. Later Mr. Jarmin opened a new drug store at 30 North Central avenue under the firm name of Jarmin's for Drugs, where business was conducted until 1938. Need for a complete rest made it necessary for him to retire temporarily from active business. After an extended rest and vacation trip, Mr. Jarmin resumed his activities in the drug business here, associating himself with a well known local drug store. Construction of his new Penny-Wise store has extended over a period of several weeks.

One of the features of the new Penny-Wise store will be a handsome, modern fountain with 18 stools and the very latest-type bar. Fountain lunchettes with coffee, sandwiches, salads, soups, etc., will be served, with Jarmin's own ice cream featured in various tasty dishes. Ice cream manufacturing facilities to accommodate 140 gallons at all times has been installed.

Included in the stock of Jarmin's Penny-Wise drug store will be a full line of gifts and sundries, cut-rate tobaccos and drugs. One unique department of this new store will display party novelties. Ruscraft greeting cards will also be carried in stock.

Mr. Jarmin, who has had many years experience in the drug business and as a registered pharmacist, will personally manage his new attractive store and supervise the well stocked prescription department.

INDICT JEALOUSY SPURRED SHOOTER

Dallas, Sept. 5.—(P)—First degree murder charges were filed here yesterday against Dewey Jackson, 45, logger, by District Attorney Bruce Spaulding, and Jackson was bound over to the grand jury.

Jackson is charged with the fatal shooting Wednesday of Joe McCoy, 40, Indian, at Grande Ronde, Sheriff T. B. Hooker said Jackson confessed the shooting. Jackson charging McCoy had been giving attentions to Mrs. Jackson.

GOOD PROSPECTS FOR COUNTY FISH

Portland, Sept. 5.—(P)—Rains this week brought the first run of cutthroat trout into coastal streams and salmon trolling at the mouth of the Columbia has been excellent, the state game departments weekly bulletin said today.

The report by counties included:

Jackson—Rogue river good for both steelhead and trout.

Josephine—Fishing very good in Rogue river.

Cook—Trout and salmon angling fair, improving since rains.

Douglas—Umpqua river good for salmon trout and cutthroat near Roseburg, but Reedsport district unreported.

Curry—Salmon trolling in Rogue river improving, steelhead fishing and trout fly fishing good.

Klamath—All streams high and muddy. Lakes all good.

BARUCH REPEATS DEFENSE IN NEED OF SINGLE HEAD

Washington, Sept. 5.—(P)—A new federal agency set out today to enlist even the smallest industrial plants in the national armament manufacturing drive, but one of President Roosevelt's principal advisers repeated his conviction that a single administrator is urgently needed for the whole defense production program.

Bernard M. Baruch, who conquered a similar military production problem 24 years ago, called not only for a single defense chief but for a blanket ceiling on prices.

Last night, a few hours after Baruch's blunt criticism, the president announced creation of a division of contract distribution in the office of production management, to be headed by Floyd B. Odium, New York financier.

A White House statement said the new agency was formed to further "a determined move on the part of the administration to help the smaller business units of the country obtain a fair share of the defense orders, and to prevent, so far as possible, dislocation of industry and unemployment of workers in plants where production has been curtailed by priorities and material shortages."

Tall, white-haired Baruch had no immediate comment on this development. But he was no more than out of the White House door after lunching with the president yesterday when he told reporters in plain words what he thought should be done to speed vital production.

Baruch saw the new seven-member supply priorities and allocations board, headed by Vice President Wallace, as only a "faltering step forward." He expressed the hope it would work, but he asserted: "The one thing this picture needs is one-man authority."

DRUG FIRMS END NAZI DYE PACTS

Washington, Sept. 5.—(P)—Acting Attorney General Francis Biddle announced today consent decrees under which four important American drug companies must break contracts with the German dye trust which prevent United States firms from doing business in South America.

The two decrees, based on civil action charging anti-trust law violation by restricting markets, particularly in Latin-American countries, were filed with Federal District Judge Samuel Mandelbaum in New York.

REAMES REPORTS ON CANADA TRIP

Attorney Charles Reames doesn't care to make another 1500-mile trek into the primitive areas of Canada to fish because he believes that Diamond lake and certain parts of the Rogue river, on occasion at least, afford just as good sport.

This Mr. Reames told the Lions club at its weekly dinner-meeting Wednesday in the Hotel Medford as he recounted the expedition he made recently with his 15-year-old son Tommy. Not that Mr. Reames and his son didn't have a thrilling time. Far from it. He described the Canadian wilds as a fisherman's paradise, told of the abundance of trout and indicated that he wouldn't have missed the experience for anything.

The club was entertained by two of Eve Prentice's accordion pupils, Maxwell Peirce, Jr., and Patricia Dahl, the young lady also giving a tap dance.

The spotlight's on JARMIN'S grand new drug store at 323 East Main, next to Hubbard's Hardware. It's as modern as tomorrow. In location . . . in ease of access . . . in the completeness of its appointments for the convenience and comfort of patrons . . . in the new, beautiful equipment of all departments . . . in the scope of its service . . . and in its ability to render new standards for value—the new Jarmin's is the ultimate in drug store design. There are so many improvements that even a brief description would require too much space. You'll want first hand information of the unusual advantages offered by all departments so plan to be here on Saturday.

Out of many — ONE
Just as the Constitution welded several ineffectual states into one powerful union, so, too, does the pharmacist compound one effective medicine out of many different drugs. To render this service, we must maintain a prescription stock of approximately 2,000 items—many of which are seldom used and even unprofitable—but they are here to protect you and yours against dangerous delay.
Be wise—economize—have your prescriptions filled at Jarmin's Penny Wise.
