

RAILWAY UNIONS VOTED AUTHORITY TO STRIKE SEPT. 11

Affects All Workers But
Train And Yard Crews—
Wage Issue Involved.

Chicago, Sept. 5.—(AP)—Chief-tains of 19 railroad unions announced today that they had been authorized to call a nationwide strike in an effort to enforce demands for wage increases.

Heads of the non-operating unions with a membership of approximately 900,000 set Sept. 11 as the date for a strike. Officials of the five operating groups, said that 98.7 of their 350,000 members voted in favor of a strike.

The leaders of the operating unions reported that preliminary figures on a strike authorization vote showed that out of 287,000 votes cast, 283,429 were for a strike and 3,571 were against.

The heads of the 14 co-operating railroad labor unions representing more than 900,000 employees throughout the United States announced today that these employees by their votes have authorized the call of a strike in order to bring about adjustment of the pending nationwide controversy involving wage increases, vacations with pay and the efforts of some of the carriers to make changes in rules governing conditions.

"The employees involved in this action include all classes and crafts of railway employees, excepting those in train, engine and yards service. These employees, the heads of the unions announced, have voted to authorize a strike on all railroads by majorities from 95 to 100 per cent.

"At a meeting early this morning the chief executive officers of the 14 unions decided to immediately act under the authority given them by the employees and they are mailing to their memberships throughout the country today permission to strike at 6 p. m. Sept. 11, 1941.

"This action was taken, the heads of the unions pointed out, in order to bring into play the last remaining machinery of the railway labor act for adjustment of railway labor disputes."

Alvanley Johnston, head of the Brotherhood of Locomotive Engineers, said that the operating unions would announce a date for a strike within three days.

Johnston said that the operating unions undoubtedly would reject a proposal to arbitrate the dispute.
