

PREPARE AHEAD FOR CANTONMENT THIS AREA TOLD

Former Resident Now Living
In California Cites Con-
fusion In Sister State.

If plans are not carried out in advance to take care of the horde of workers required, Medford and the whole of Jackson county will be submerged in confusion, lack of housing and sanitary facilities and inflated prices should the proposed army cantonment in the Beagle-Antelope district be authorized.

This warning came today from Mrs. Nellie Fulton, former local resident who now makes her home in Berkeley, Cal. Mrs. Fulton owns a 10-acre piece of property on Crater lake highway, 15 miles out of Medford which she plans to convert into a trailer camp if the cantonment becomes a reality, she related. Don & Betty's place, a service station and grocery, occupies part of the property, the business having been leased by Mrs. Fulton to the present operators.

Mrs. Fulton said she has seen the effects of an army cantonment on a number of California cities and she has gleaned other general information from her nephew, Don Harford, a major in the army who is stationed at the Presidio of San Francisco and is engaged in cantonment construction on the west coast.

"Once the authorization is given, army cantonments go up so fast and so many thousands of workers swarm to the jobs that unless something is done beforehand, Medford's head is going to swim when and if the proposed camp is started here," she said.

"It's hard to conceive the magnitude of these jobs," Mrs. Fulton emphasized. California cities near new camps have been swamped, she asserted, adding that accommodations and even parking space couldn't be found 30 miles around trailer camps and tent colonies spring up, she stated.

Mrs. Fulton counseled Medford and the county to do something now before the cantonment hordes swarm into the city.

(Editor's Note: For months the civilian cantonment coordinating board has been at work planning to meet the very problems Mrs. Fulton outlined. Dozens of representatives of various federal agencies which have appropriations to protect communities in defense areas so far as civic needs are concerned have come here to help formulate plans for housing, schooling, recreation, sanitation, water supplies, etc., but apparently none of the agencies has authority to take any definite action until the proposed cantonment is authorized. By then, it is generally agreed, it will be too late and because of this the coordinating board is known to be gravely concerned over the outlook.)

Warning to Mothers:

WORMS CAN CAUSE TROUBLE

Learn the truth! Anybody, anywhere, can have roundworms. And they can cause great distress inside your child without your even knowing about it.

Many pale, nervous, underweight children have roundworms. Other telltale-looking warning signs are: uneasy stomach, edging, itchy seat, nose-picking.

Don't take chances with roundworms! Get Jay's Vermifuge today! It is America's best known proprietary worm medicine—used by millions, for over a century. Jay's apple distillate roundworms, yet safe for all. If there are no worms, it works just as a mild laxative. Insist on Jay's Vermifuge.
