

FBI FILM SHOWS COURT HOW NAZI SPIES OPERATED

Secretly Made Movie Catches Man Displaying Plane, Gun, Boat Plans.

Federal bureau of investigation today showed on a screen in Brooklyn federal court 200 feet of film which FBI Agent William Friedman said depicted a German spy going over plans and pictures of stolen American war devices.

"Star" of the picture was Frederick Duquesne, 63, whom the government charges with leadership over 16 men on trial for espionage conspiracy, 17 others who have pleaded guilty and a number of other persons as yet unapprehended.

Secretly Made The film, secretly made of

Duquesne in animated conversation with William Sebold, American counter-espionage agent, recorded a 24 minute scene in Sebold's office. A clock and calendar in the background set the time at 6:18:32 on July 25, 1941, two days before the defendants were rounded up.

In the film Duquesne produced an envelope from his sock, containing pictures of an airplane, gun and boat.

Friedman said that in this conversation Duquesne discussed military secrets he had stolen, instructed Sebold in the collaboration of minute incendiary

bombs for dock fires and revealed his intention to blow up the General Electric plant in Schenectady, N. Y.

Spies Poorly Paid The federal bureau of investigation intercepted most of the money sent here for German spies and doled out only small and infrequent sums to the complaining unpaid spies, according to evidence given at the trial today.

Sebold, who was commissioned by the German Gestapo to conduct its espionage here and who invited the FBI to collaborate on the assignment, testi-

fied that Duquesne complained often about poor pay. Meanwhile he said the money was being sent to him in bank accounts and Hamburg was wondering how to send even larger sums to appease the grumbling Gestapo agents.

Of \$22,000 received by Sebold, more than \$13,000 still is on deposit, the witness testified. Sebold, whose counter-espionage activities were directed by the FBI, said he had paid Duquesne only about \$650 for 18 months intensive work, while other defendants were paid even less.

This was brought out in cross-

examination by Frank J. Walsh, Duquesne's counsel.

Sebold testified that in February, 1941, five months before announcement of the occupation of Iceland, Duquesne had advised him that 30,000 American soldiers and 4,000 officers would leave for Greenland and Iceland. He added that Duquesne sent to Germany a new American gas mask diaphragm and what purported to be a model of a new type of ship.

The production of maple syrup in Canada in 1941 is estimated at 2,276,400 gallons.

BRITISH OFFICER HERE ON AIR TRIP ADVISES FIREMEN

advice and instruction on air raid precautions, left here Wednesday by United Mainliner for Los Angeles.

Mr. Scott came here by private plane from Bend where he addressed and instructed the annual convention of the Oregon State Fire Chiefs association. He was flown to Medford in a Piper Cub plane by Thomas Stevenson, a state policeman and Phil Gould, his next assignment was to work with the Los Angeles fire and police departments in perfecting air raid defenses.

As a message to Americans, Mr. Scott said as he waited for

the Mainliner: "The people of England would rather die than see their soil desecrated by the Nazis, every man, woman and child of us."

Mr. Scott said he has been in about 100 bombings and has had 21 months of actual experience in air raids. His specific job he related, is the dangerous task of disposing of unexploded delayed action bombs. His home town of Eastborne has suffered the destruction of 5,000 houses by bombs, he said, adding that the city was 8 minutes by air from Nazi bases.

Before going to Bend, Mr.

Scott addressed fire chiefs in convention at Reno, Nev.

RATION CARDS TO SEATTLE DRIVERS
Seattle, Sept. 18.—(AP)—Retail gasoline dealers began issuing customer "ration cards" to car users here today. E. E. Vinup, president of the Washington Gasoline Dealers association, said the step was in anticipation of federal gasoline rationing on the west coast and was in line

with a recommendation by Ralph K. Davies, deputy petroleum coordinator.

Information asked on the cards include the name and address of the driver, make of machine, whether the car is used wholly or partially for work and estimated gallons used per month.
