

FINNS TO CEASE WHEN FRONTIERS BELIEVED SECURE

Official Radio Implies Peace
With Russia Possible
When Aims Achieved.

Helsinki, Finland, Nov. 7.—The official Finnish radio has circulated abroad an important statement of aims which says that Finland's war with Russia will be ended "as soon as the threat of renewed attack has been removed and her frontiers made secure."

A broadcast implied that Finland would quit fighting once that aim was achieved, leaving to a peace conference of the dominant powers sometime in the indefinite future the final determination of her new boundaries.

Interpreting a reference to the peace conference, authoritative Finnish sources said this in no way implied negotiations with Soviet Russia.

(Ed. note: A recheck in Helsinki led to revision of an earlier version which quoted the Finnish radio as saying that "military operations are drawing to a close as far as our country is concerned.")

Defensive War
An English language broadcast on the Helsinki radio yesterday included extracts from a pamphlet published by the Central Union of Finnish Labor Organizations which included the following, to quote in full the most significant passage:
"Finland's war is purely de-

Jap Adviser Enroute

The Japanese government announced it was sending Saburo Kurusu (above), former ambassador to Germany and who signed the Axis Alliance for Japan, to Washington, D. C. from Japan by Trans-Pacific clipper in an effort to reach an accord with the United States. The clipper plane was being held at Hongkong pending his arrival there by plane from Tokyo.

fensive and it will come to an end as soon as the threat of renewed attack has been removed and her frontier has been made secure."

Another extract broadcast: "Our frontier cannot be finally determined until the coming peace conference."

This, it was explained later, referred to a conference in the indefinite future and in no way implied negotiations with the Russians.

NEW ICE ARENA TO OPEN DOORS HERE SATURDAY

Floor Shows With Seattle
Talent Will Inaugurate
\$50,000 Skating Resort.

The \$50,000 Medford Ice Arena at 819 South Grape street, with a seating capacity of 2,000 persons and an ice surface of 185 by 85 feet, will formally open its doors to southern Oregon's winter sports enthusiasts Saturday.

Modern in every respect and designed to bring to local skaters the finest facilities for their favorite sport to be found anywhere in Oregon, the arena will celebrate its inauguration with a four-day series of special floor shows staged by five of the best-known figure skaters in the northwest.

Imported Talent
All from Seattle, these skaters are Lael Peters, 11-year-old feminine ice star; Dorothy and Ralph Beymer, Bobbie Morris and Kenny Spence. They'll entertain the spectators and local skaters with comedy acts on ice, graceful dances and pair routines.

Here for four days, the five Seattle skaters will present their floor shows at 8:30 and 11 p. m. Saturday, 9 p. m. Sunday, 9 p. m. Monday and 8 and 11 p. m. Tuesday, Armistice day.

Also scheduled for Saturday's opening night will be the crowning of the queen of the winter sports season, Miss Nanette Holmes, beautiful Medford senior high school girl. In charge of the ceremony will be Sparky Bourque, manager and professional instructor of the arena.

The huge frame structure, well over 250 feet in length, will house a modern glass-enclosed coffee shop, to be operated by Dick Phair. The coffee shop will face the ice to enable patrons a free view of the skating at all times.

Big Skate Stock
Also in the front of the building will be the skate sales room, stocked with 600 pair of skates to assure purchasers a perfect fit; the skate rental room with a large stock, and the office. Entrance to the arena will be on South Grape street. The street has been graded and graveled and will provide parking accommodations for 300 cars in the immediate vicinity of the arena.

A glass enclosed balcony, well-furnished and heated, will be available for spectators who desire to watch the skaters. Skaters will be prohibited from entering the balcony. Music for the skaters will be provided by a fine pipe organ, and a recording-system and speaker.

There will be three inches of

glass-smooth ice on the ice surface when the arena opens, according to Mr. Bourque. The ice, built up from the refrigeration system, is surfaced by planing it with a large shaver towed behind a tractor. After it is smooth the ice is flooded and frozen to make a new sheet of ice, this operation being done after every session, Mr. Bourque explained.

Kiddies will be the first to try out the ice Saturday morning, with a session from 10 a. m. to noon. There will be two matinee sessions Saturday, from 1 to 3 and from 4 to 6 p. m., and two evening sessions from 7:30 to 9:30 and from 10 to midnight.

Following are the schedules of sessions Sunday, Monday and Tuesday:

Sunday—10 to 12 a. m., 1 to 3, 4 to 6, 7:45 to 10 p. m.
Monday—9:30 to 11:30 a. m., 3:15 to 5:15, 7:45 to 10 p. m.
Tuesday—10 to 12 a. m., 1 to 3, 4 to 6, 7:30 to 9:30, 10 to 12 p. m.

JAPANESE ENVOY BRINGING FORMULA FOR SETTLEMENT

Washington, Nov. 7.—(AP)—Saburo Kurusu, the special Japanese envoy en route here on a Pacific Clipper, was reported

today to be bearing an imperial-approved formula for a peaceful settlement of Japanese-American problems.

Kurusu's dispatch case, diplomatic circles here said, also may enclose a personal message from Premier General Hideki Tojo to President Roosevelt presenting the Japanese government's view of the tense far-eastern situation and proposals designed to assure what Japan considers an amicable solution.

Secretary Hull and other state department officials profess, however, to have no authoritative information of Kurusu's mission, or what proposals he may be bringing from the Japanese government.

Official reaction was summed up: Wait and see.

Amateur radio stations in Ireland have been closed because of existing emergency conditions.

SCHOOLS INSURE PUPILS

Zurich, Switzerland (AP)—Accidents do occur in schools and so the canton of Aargau has worked out an insurance program for the protection of pupils, teachers and the taxpayer. Compulsory insurance for elementary grade students is paid by municipalities, and for advanced grade pupils by the state. The program is the result of 20 years of voluntary experiment during which actuarial data were acquired.
