Lend-Lease Total to America's Allies Now \$1,202,000,000, Word

Washington, Dec. 15.—(AP)—President Roosevelt reported today that lend-lease aid to America's allies—33 countries listed as eligible—had totalled \$1,202,000,000 through November 30.

Actual exports to December 1, however, were worth only \$595,000,000, he said.

The third report submitted to congress on lend-lease activities said aid extended amounted to only \$18,000,000 in March but the extent that \$283,000,000 worth of material was made available in November.

Congress has voted nearly \$13,000,000,000 for lend-lease.

Mr. Roosevelt said in a letter to congress that the weapons from the arsenal of the democracies must be used where they can be employed most effectively and "that means we must lead Britain, Russia, China and other nations including those of this hemisphere, use the weapons from that arsenal so that they can put them to most effective use."

WIVES And EMERGENCIES Have Their GOOD Points

The best-intentioned husband is a bit vague about what his wife does around the house. He takes a good deal for granted . . . just as he does when he drives into a Standard Station and says "Fill her up." Then . . . boom! . . . along comes a crisis. He does the spron.

It's make those beds . . . bathe that baby . . . phone that grocer . . . Junior, stop biting Sister! It's sweep those floors . . . wash those dishes . . . Ye gods, that doorbell again! It's din . . . din . . . din. "You're a better man than I am," says Friend Husband as he learns the tough way to appreciate the Little Woman.

Yes, sir, a crisis can give validity to those words "You don't know what it means to be a mother." And a crisis IS making the public sense what it means to be an oil company. With Uncle Sam saying "Tankers, please," "Gasoline, please," the people begin to see behind that taken-for-granted oil-pump.

They see the well-rigs built of steel and sweat . . . the tank-ships in heavy seas . . . the pipelines broiling across a desert . . . the men who integrate a thousand activities into one operation. For us the bright spot of the emergency is this: Folks are commencing to recognize us for what we are . . . a working member of the nation's family.
