

# HORSE AND MULE REGISTRATION IS SET FOR COUNTY

### Western Remount Headquarters Requests List—County Agent Powered.

Registration for military service of all horses and mules in Jackson county, between the ages of three and 10 years, will be made by County Agent Robert G. Fowler, acting under instructions from the Western Army Remount headquarters at San Mateo, Calif. The registration to include Oregon, California, Nevada and Washington, ends January 10.

Lt.-Col. F. W. Koester in charge of the registration, in a statement said:

"Experience of the present war shows the horse and mule still essential for a variety of uses in modern armies. Germany has thus far employed something like a million, Japan has used large numbers in China and Russia currently is winning large scale successes with mounted units or units otherwise employing horses.

"In our domestic life of the near future horses may be most vital. Curtailment of production of power driven farm machinery and transportation, restrictions on use of various fuels or lubricants, actual shortages of certain essentials, greater demands on agriculture and similar conditions present or possibly imminent, make future and greater importance of the horse likely.

"America has more well bred useful horses and mules than any country in the world. We can use them and may need them anywhere anytime."

Animal owners are asked to give age, color, whether riding or driving type, broken or unbroken and whether or not necessary for owner's own use.

The statement concludes: "It is desired to emphasize that this is not a draft of animal resources and that it seems most unlikely that will ever be necessary. When horses or mules are needed they will be purchased. Prompt registration of animals of a useful military age is simply

a most desirable step in our defense preparations. Registration of animals at this time is patriotic but obviously a voluntary obligation."

## PIPES BURST AS MERCURY DIVES

The new year received a cold welcome in Medford with temperatures New Year's eve plunging to 16 and the weather bureau reported 17 degrees as the minimum last night. Plumbers reported many telephone calls because of frozen and bursting pipes.

Maximum temperature yesterday was 31 compared with 36 degrees Wednesday. The weather bureau forecast "not so cold today and tonight."

Heaviest snow since 1933 now lies on the ground at Fish lake and Four Mile lake, according to Ed N. Judd, manager of the Medford Irrigation district. Yesterday there was 59 inches at Four Mile and 26 inches at Fish lake. Wednesday night it was two degrees above zero and last night seven above, a telephone report said.

San Francisco, Jan. 2.—(P)—  
Freezing temperatures in northern California and near zero weather through most of Nevada were forecast for today in a continuation of the cold wave which already has brought a touch of snow to the usually mild San Francisco region.

Washington, Jan. 2.—(P)—  
The navy department has agreed to re-examine a bill introduced by Senator McNary (R., Ore.) last spring to authorize construction and operation of a floating dry-dock at Astoria.

## Communications

Comment on Mr. Eldredge's Letter

To the editor:  
Mr. Eldredge's communication of December 26th, shows he was on the right track eight or nine years ago, but it seems he was side-tracked. Now as I understand the principles of the New Deal, it is supposed to give the people any and all the promises they want in exchange for their support when the government wants it, and as far as I can learn, our government has never broken any of the promises it has given, neither has it made any of them good, and as long as it doesn't try to make any of them good, how can it break any of its promises?

Mr. Eldredge also leaves the impression that Mr. Roosevelt knew there was going to be a war in Europe months ago. I didn't know there was any one who did not know it years ago, when we guaranteed to protect China and then let the Japs take Manchukuo we had to take it back so we could give it back to the Chinamen didn't we? Or are you contending that our word is no better than our navy seems to be. Now Brother, let me tell you this, our President had the known U. S. A. emblem on his Christmas dinner table, the little white navy bean, but he didn't say he would eat any of them, so don't accuse him of something he did not do.

As far as Mr. Churchill is telling his people the truth, I'd like to remind you of this one. Our forefathers paid John Bull with their blood for the U. S. A., just because they refused to pay the tax John Bull put on them, and we are giving it back to John Bull for a little of John Bull's bull.

As you say we could all work for our keep and take the profits out of war, so as not to leave a debt for our children to pay; but if that was done just how could our government control that on the meal tickets? I waived exemption in the world war and even was asked to buy my own clothes which I did, and have already signed over what I have accumulated since the world war, that is, all but the mortgage on my place, for some reason the government didn't want that, but if I carry a gun in this one there will just be an awful lot of congressmen and both 10, 15 and 20,000-a-year men in my company.

Here's hoping that it won't be long before all the representatives in Washington can have their places filled with women from the basement to the attic of the White House.

(Signed) C. E. JAGGERS, Medford, Oregon.
