

\$6,087 WORTH OF DEFENSE SAVINGS SOLD BY CARRIERS

Jack Cate of Route 17 Leads
With \$2,148 Total—Con-
venient System Set Up.

At the end of their third week of selling January 3, Mail Tribune carriers had sold a total of \$6,087.95 in national defense savings stamps and bonds, Gerald T. Latham, circulation manager in charge of the campaign announced today.

Jack Cate, carrier on route 17, led the field with a total of \$2,148.60. Jack had the highest individual credit for the sale of bonds, his sales comprising the only \$1,000 bond sold, three \$500 bonds, three \$100's, one \$50 and one \$25. The bonds, of course, sell for less than the stated price which is the maturity value.

At the end of the third week Bruce McKay of route 24 stood second among the carriers with total sales of \$1,408.85. Leland Dressler, route 22, was third with \$497.25, Tom Gerety, Jr., route 13, fourth with \$476.05 and Robert Kyle, Jr., route 5, fifth with \$377.70.

Convenient System
The total sales of \$6,087.95 comprised 6,192 ten-cent savings stamps, \$919.20; 29 \$25 bonds at \$18.75 each, \$743.75; two \$50 bonds at \$37.50 each, \$75; 17 \$100 bonds at \$75 each, \$1,275; seven \$500 bonds at \$375 each, \$2,625; and one \$1,000 bond at \$750.

While it was the government's original intention of enlisting the carriers to sell only ten-cent savings stamps, so many subscribers have insisted on buying bonds through the carriers and the boys have proved such good salesmen that more convenient arrangements have now been made for handling bonds.

Under the new procedure, subscribers wishing to purchase bonds from the carrier will be given a form to be filled out. The carrier will accept the completed form and a check, money order or cash for the value of the bond desired. The carrier will deliver the order and the check, money order or cash and the bond will be mailed from the postoffice by registered mail.

All checks or money orders must be made out to the postmaster and no bond will be issued until the postmaster has cleared the check through the bank. It is provided in the new government regulations.

BICYCLE LICENSE TAGS NOW READY

City police said today they had received 2,000 1942 bicycle license plates and that applications for the licenses would be received starting at once. Every bicycle in the city must be licensed.

Bicycle owners, who possessed 1941 licenses, were asked to bring their 1941 cards and any transfer data to city police station when applying for a renewal. Those who had 1941 licenses will not be required to take an examination, police said. Last year there were 1,570 bicycles licensed.

The first 100 license applicants will be allowed to draw for a low license number. All owners are asked to make applications at city police station in city hall as soon as possible.

Last Rites Held for Mary Shafer Demmer

Funeral services for Mary Shafer Demmer, 55, who died Saturday afternoon in her home, 433 West Holly street, were held this afternoon at the Perl chapel, the Rev. H. H. Young officiating. Interment was in Medford L.O.O.F. cemetery.

Mrs. Demmer was the wife of John Demmer. It was erroneously stated in Sunday's obituary that she was his widow.

BABY READY TO EAT

Portland, Jan. 6.—(P)—Loy Dene James had two teeth at birth, but that wouldn't have surprised her grandmother, who also started life with eating equipment, Mrs. L. E. James, the baby's mother, said yesterday.

Weather Sky Box Looked Like Jap, Rancher Reports

The aircraft warning service of the Jackson County Council of Defense is taking no chances with Jap parachutists landing around here. This morning William Quackenbush of route 3, a spotter out in the country, reported the descent of a parachute with a big red box dangling from it. The central office quickly dispatched a crew to the scene. They found a "sky box," the meteorological device sent aloft daily by the weather bureau for high-altitude data. The box descends on a parachute. The one this morning was heavily coated with ice.

ROAD COMMISSION PUTS DAMPER ON FUTURE BUILDING

Exception Will Be Work
Needed To Aid Movement
Of Troops Or Equipment.

Portland, Ore., Jan. 6.—(P)—The State Highway commission meeting in special session, announced today that it would shut down all new construction work other than that under contract.

The only exception will be such major highway construction as is needed by the army for moving troops or equipment in Oregon.

Everything else, including highway maintenance, will be held to a minimum.

Cut Out Frills
Tourist advertising, park service and landscaping divisions will be carved to the bone or suspended entirely and commission participation in the Oregon Trail Centennial celebration will be greatly reduced.

The commission decided to take a "trial balance" of all projects which have been planned for future work and "close the books as of today."

Commissioners said the effect would be to freeze such projects for the duration of the war but leave them, standing for early resumption afterward.

Seek Right of Way
Negotiations of right of way on the Klamath Falls and Ashland construction projects, on which part of the work has been completed, will be continued. Right of way negotiations on the Gold Beach project were shelved for further consideration.

Commission members estimated that automobile and tire restrictions would cut gasoline tax income in the neighborhood of \$1,000,000 this year and would range upward to \$4,000,000 in 1943.

The federal government will furnish 75 per cent of the construction cost of highways designated by the army, with the state required to furnish the remaining 25 per cent.

MEDFORD POLICE HAVE OWN RADIO EQUIPMENT NOW

Station KRIQ At City Hall
Operates On 24.42 Kilo-
cycles; Cars Receive.

Providing direct communication between the office in city hall and their two patrol cars, the Medford city police short-wave radio station, KRIQ, went into operation Sunday.

The station, of 50 watts, broadcasts on a frequency of 24.42 kilocycles. The transmitter is located in the station and the antenna is on top of city hall on two 35-foot poles.

The system was provided for in the 1942 city budget, and was installed by Frank Rogers, city building and light inspector and Dave H. Rees, local radio technician. Eight city policemen have been licensed as operators of the station.

Cars Equipped
The two city police patrol cars have been equipped with receiving sets for over a year, designed to pick up broadcasts of the local state police short wave radio. Heretofore, when city police headquarters wanted to contact one of their patrol cars, it was necessary to telephone state police and have them broadcast to the car. With their own transmitter, city police headquarters will be able to directly contact their patrol cars.

As soon as the equipment is available, the two patrol cars will be equipped with sending apparatus and will be able to contact headquarters as well as receive messages, Mr. Rogers explained.

**Rev. Coleman First
Speaker in Opening
World Prayer Week**

Medford's observance of the World's Week of Prayer opened last night at the Nazarene church when Rev. R. W. Coleman, pastor of the First Christian church, talked on "The Church in the National Crisis." Ten ministers participated in the service.

Continuing the week's theme "the place and importance of prayer in this world crisis"

hour," Rev. Karl Brockhaus, of the Zion Lutheran church, will give the message tonight at the First Baptist church at 7:30 o'clock. His subject is "The Church in the Life of Youth." All Christian citizens are urged to be present. No offering is asked.

U. S. Bomber Raid IS NO. 1 EXPLOIT

Washington, Jan. 6.—(P)—For results, the No. 1 exploit reported in the final U. S. communiqué yesterday was the work of the army bomber flight which blasted an enemy destroyer to the bottom of Davao bay in the Philippines and scored three direct hits on a battleship in the same waters. All the bombers got back undamaged to their secret base.

The big thriller, however, was the stirring battle put up by the U.S.S. Heron, a small seaplane tender, which fought off a seven-hour attack by 15 Japanese bombers in the far east. The tough little ship destroyed one four-motored flying boat, badly damaged at least one other, and was able to make port safely despite the one bomb hit she sustained.
