

UNION ROW HALTS ARSENAL BUILDING

Pontiac, Mich., Jan. 21.—(AP)—Two hundred AFL building tradesmen stayed away from their jobs today on a partially completed building where anti-aircraft guns will be made, but a union official claimed that it was "no strike."

A jurisdictional dispute between AFL and CIO workers has been going on at the building. The AFL men are said to have objected to installation of machinery by CIO men. The Pontiac motor division of General Motors Corp. is putting up the building.

Victor Seeringer, state mediator, announced that the AFL men had agreed to resume work tomorrow pending negotiations.

Archie Virtue, secretary of the Oakland county building trades council (AFL), objected to identifying the cessation of work as a strike.

"The boys," he said, "are just

taking a vacation to fill out their income tax blanks."

Lansing, Mich., Jan. 21.—(AP)—Some 1,500 employees of the Fisher body plant walked from their jobs Tuesday and demonstrated on the state capitol grounds in what leaders of the United Auto Workers (CIO) said was a protest against failure of the General Motors Corp. to provide sufficient war work for the plant in which they are employed here.

BAD, BAD DREAM

Roanoke, Va. (AP)—Miss Margaret Pearman, state employment service secretary, hasn't a crystal ball and doesn't claim occult powers, but on the morning of December 7, 1941, she awakened and told her family that Japan had bombed Manila and the U. S. had gone to war. She thought at first she had heard the news by radio, but then realized she had dreamed it. Her dream was almost identical with news of the outbreak of war broadcast later in the day.

New Mexico's birth rate of 27.7 babies per thousand people is the highest in the country, census figures show.
