

ROOSEVELT ASKS VAST INCREASE IN NAVY FUNDS

Over 6 Billion More Wanted—Record Omnibus Bill Receives Final Signature.

Washington, Jan. 30.—(AP)—President Roosevelt today asked congress to add \$6,016,300,000 to the record-breaking navy appropriation bill already passed by the house.

A senate appropriations subcommittee approved the new requests and the house passed the bill a few minutes later and the full appropriations committee will consider the record spending measure tomorrow.

The president made the request a short time before signing a bill appropriating \$12,555,000,000 including funds for 23,000 combat planes and 10,000 training planes for the army. The army air corps would get about \$9,000,000,000.

Largest Appropriation

The measure, largest single appropriation ever passed by congress for one military arm, also carried \$30,000,000 for construction of the Douglas dam on the French Broad river in TVA territory.

Later the house completed legislative action on two measures authorizing \$3,500,000,000 for naval expansion and sent them to the president for signing. They would authorize construction of 1,799 minor combat, patrol and auxiliary vessels and expansion of existing shore facilities and construction of undesignated new facilities.

The new naval estimates were received by a senate appropriations subcommittee after Chairman Overton (D., La.) announced that he would try to put an additional \$4,000,000,000 in the huge bill for additional naval aircraft.

The committee also added a flat \$500,000,000 for the navy to use for reservoirs of emergency supplies, which with the presidential request pushed the total appropriation to \$26,494,265,474, compared with \$19,977,965,474 voted by the house.

Mrs. Grigsby to Open Victory Beauty Salon

Mrs. Mabel Grigsby, formerly of the Craterian Beauty shop, announced today the opening on Feb. 2 of the "Victory" salon of beauty at 24 South Grape street.

Mrs. Grigsby said experienced operators would be available, including Mrs. Pearl Chord, formerly of Adrienne's, and Mrs. Alpha McClure. The salon will specialize in all types of beauty culture, the owner stated.

About 23 million pounds of cinchona bark are stripped annually in Netherlands Indies for the extraction of quinine, says the department of commerce.

GESTURE: Fingers shaped to give the Allied "V for Victory" sign. Laura Ingalls, well-known woman filer, pauses in Washington, D.C., where she recently pleaded innocent to a charge of not having registered as a paid agent of the German Reich.

F. D. R. Signs Price Control With Critical References To Farm Price Provisions

Washington, Jan. 30.—(AP)—President Roosevelt in signing the price control bill today declared in a formal statement that it "does not mean that the battle against inflation has been won," and expressed doubt as to the wisdom and adequacy of certain sections.

Amendments may become necessary later on, he added. Earlier at a press conference he praised all sections except those relating to farm prices, saying the provision permitting farm prices to rise to 110 per cent of parity before ceilings could be applied was not so good and tended to raise the cost of living.

No Inflation Cure

In his formal statement, the president declared that price control legislation alone "cannot successfully combat inflation."

"To do that," he asserted, "an adequate tax and fiscal program, a broad savings program, a sound production program, and an effective priorities and rationing program are all needed."

"Finally, all bulwarks against inflation must fail, unless all of us, the business man, the worker, the farmer, and the consumer—are determined to make those bulwarks hold fast in the last analysis," Woodrow Wilson said, "the best form of efficiency is the spontaneous cooperation of a free people."

Mr. Roosevelt described the new act as "an important weapon in our army against the onslaught of the axis powers."

Few Hit Ceiling

Few farm products have reached price ceilings of 110 per cent of parity authorized by the law. An agriculture department report on prices received by farmers in mid-January indicated that only rice, beef cattle, veal calves, wool, and peanuts and soy beans for vegetable oil production, had reached the minimum ceiling level.

The approximate minimum ceilings and the January 15 farm prices, respectively, of principal commodities included: Cotton 21.47 and 16.93 cents a pound; cotton seed \$50.36 and \$43.24 a ton; wheat \$1.42 and \$1.06 a bushel; corn \$1.03 and 72.7 cents a bushel; oats 64 and 50 cents a bushel; barley 99.4 and 60.8 cents a bushel; rice \$1.439 and \$1.576 a bushel; rye \$1.156 and 65 cents a bushel; flag seed, \$2.71 and \$1.95 a bushel; potatoes \$1.24 and 97.6 cents a bushel; sweet potatoes, \$1.41 and 93 cents a bushel.

Hays \$19.06 and \$10.15 a ton; apples \$1.54 and \$1.16 a bushel; hogs \$11.59 and \$10.55 per hundred pounds; beef cattle \$9.38 and \$9.77 per hundred pounds; veal calves \$11.22 and \$12.14 per hundred pounds; lambs \$11.12 and \$10.30 per hundred pounds; butterfat 44.5 and 36.3 cents a pound; eggs 32.7 and 31.3 cents a dozen; wool, 37.1 and 37.2 cents a pound; soy beans \$1.53 and \$1.65 a bushel; peanuts, Spanish type, for oil, \$77 and \$82 a ton; chickens, 21 and 17 cents a pound.

Nothing Radical

Office of Price Administration officials said "nothing sweeping or radical" in the way of the new price ceilings need be expected immediately.

The effect on the consumer will be negligible for the time being, they said, except insofar as the new enforcement powers vested in Price Administrator Leon Henderson may have the psychological effect of dissuading producers and dealers from edging prices up.

No new food price ceilings are imminent; no spurt of price-fixing activity is contemplated, and no wholesale dive into the retail price field need be looked for, Henderson aides asserted.

For the time being the principal job of OPA executives will be that of converting the existing price schedules—covering 78 commodities, mostly raw materials—which are enforced by what Henderson calls jawbone authority, into full-dress price regulation enforceable by law.

SKI RACES OFF

Major Provisions Of Price Control

Washington, Jan. 30.—(AP)—Here are major provisions of the price control law signed by President Roosevelt today:

Price maximums or ceilings may be fixed by a single price administrator for a long list of commodities needed for war or civilians.

Prices between October 1 and 15 of last year would serve as basis for these maximums, with exceptions for fishery and farm products, which could rise to a level 110 per cent of parity, before controls applied.

Maximum rents likewise may be fixed for any defense housing area, with rents since April 1, 1941, serving as a standard.

Business affected by the price orders may be licensed and a license taken away in court for a second offense after warning on a first offense.

Violations of price ceilings and regulations may bring penalty of up to \$5,000 and two years in jail.

Persons charged more than price ceilings may sue for triple damages or \$50, whichever is larger.

Wages and salaries were exempted. Also exempted were newspapers and other periodicals, radio, motion pictures and theaters, railroads and other utilities, insurance and professional fees.

Today people in the United States eat slightly more than two bushels of potatoes a year in contrast with three and one-half bushels per person 20 years ago.
