

SEAL SALE OVER GOAL IN COUNTY, MEETING IS TOLD

Over \$3,077 Collected And Books Not Yet Closed Is Report To Association.

With more than \$3077 collected and the books not yet closed, Jackson county had more than achieved its goal in the 1941 Christmas seal sale to combat tuberculosis yesterday and the 10 per cent increase over last year, requested by Mrs. Saldie Orr Dunbar, executive secretary of the Oregon Tuberculosis association.

The report was given by Miss Helen Bullis, county chairman, before the bi-monthly meeting of the Jackson County Public Health association, sponsor of the drive. Miss Bullis stated that while some large donations had decreased this year that many more people had contributed to the drive and that the increased goal was the result of this wider interest in the sale, extending into all sections of the county. This result was particularly gratifying to the workers, Miss Bullis stated, for they know that the increased number of contributors means an increased spread of the educational program, one of the most important factors in the drive.

15 Per Cent More
The increase in funds over last year is approximately 15 per cent to date, she stated.

Reports on the sale were also made by Mrs. Ritchie, Prospect chairman, who stated that her precinct responded with enthusiasm; and Mrs. Reed Carter of Rogue River, whose report showed an increase during the years she has been chairman from \$17 the first year to \$94.76 this year.

Workers Eager
Mrs. Dwight Findley, chairman of the booth sales, also reported increased enthusiasm for the drive this year over last, adding that the volunteer workers seemed more than eager to participate.

Mrs. J. C. S. Wells, association president, explained that 75 per cent of the money taken in remains in Jackson county for work here.

Half Million Plant To Recover Chrome From Sand in Curry

Marshfield, Ore., Jan. 30.—(AP) Krome Corporation, a new Oregon firm headed by C. F. Corzelius, El Paso, Tex., will begin construction within two weeks of a \$500,000 plant for processing chromic oxide from black sand ore in northern Curry county.

W. G. Hellier, Santa Cruz, Calif., will be general manager. Hellier announced the company's plans today through State Sen. William E. Walsh, Marshfield.

The announcement stated a plant site has been selected and will be revealed shortly before construction starts; that the company already has purchased enough black sand property to keep it running for several years, close to highway 101 over a distance of several miles, and that the federal government has contracted for the entire output. The announcement marks the first definite action towards mining and marketing of black sand as a chrome supply.

Hitler Admits He Needs Strategists

London, Jan. 29.—(AP)—The anti-axis German language newspaper Die Zeitung, published in London, will say tomorrow that a compromise reached by Adolf Hitler and certain elements of the German high command is "equivalent to an admission on the part of Hitler that he is unable to carry on the eastern (Russian) campaign without the aid of experienced strategists."

Eccles Will Seek War Work Orders

Salem, Jan. 29.—(AP)—David Eccles, recently appointed coordinator of Oregon's war industries, said today he would leave Saturday for Washington, D. C., to advise federal war contracting agencies as to what Oregon has to offer in the manufacture of war materials.

Jackson County Farm Notes

Compiled by County Agent Robert G. Fowler

Scrap Iron Drive Is On

Scrap iron piled up on the farm isn't doing anyone any good. Perhaps there isn't much scrap on your farm, but when you add it to that of your neighbor and to that of all the farms in the state it will make a very substantial contribution to the nation's steel supply. Collection of scrap iron, sponsored by the County U.S.D.A. War Board, is progressing rapidly—25 cars have already been shipped. Government regulated prices are \$8 for No. 2 scrap and \$10 for cast iron. The Medford Bargain House is the agency handling scrap for this county.

Farm Machinery And Repairs

There is every evidence that the year 1942 will be a very critical one for farmers from the standpoints of obtaining equipment and labor. A fairly high priority on farm machinery has been arranged, extending to September 1. It is necessary for all farmers to order their new farm machinery now, in order to hold this priority. It will be well to place your orders for future needs, as it will be difficult to obtain new equipment just at the time it is needed. Farmers unable to hire enough labor will have to rely upon machinery.

All repairs on farm equipment should be taken care of at this time. It is necessary that manufacturers know the quantity of repair parts that will be required, therefore, we would suggest that you check over your machinery and order necessary parts from your dealer at once. This is a defense job to which every farmer in the country can contribute by prompt repairs, better care and more efficient use of the machinery now on hand.

Burlap Sacks

Most of the burlap used in the United States comes from the Far East, principally from India. For obvious reasons the supply has been completely cut off. Farmers normally use three-fourths of the burlap imported for grain sacks; although there is a supply of burlap in this country at present, two-thirds has been frozen for use by the army, mostly for sand bags. We suggest that the present supply of sacks on hand be checked carefully, mended if not too far gone, and stored. It is obvious that the present supply of burlap sacks will have to do the job for the coming harvest.

Jersey Breeders

Jersey breeders of Jackson and Josephine counties met in the courthouse auditorium January 17 for the annual meeting of the Rogue River Jersey Cattle club. Officers elected were C. J. Hunter, Talent, president; Frank Schmitz, Wald. Grants Pass, vice president; E. B. Foyler, Ashland, treasurer; R. G. Fowler, Medford, secretary. Fifty dairymen attended the meeting including 4-H club

leaders and members of Jersey calf clubs. A program was outlined for the 1942 season, which will include two tours—one in Josephine and one in Jackson counties, 4H club sponsorship and other matters of interest to Jersey breeders. This is an enthusiastic group that believes in the Jersey cow and is boosting for the breed all the time.

Nutrition for Defense

Each of us wants to do our part in promoting our fight to victory. The part of the average woman in Jackson county will not be spectacular, but will certainly be worthwhile. Have you been wondering what you might do as your part in our defense program?

In the first place, live by the rules of good nutrition. Prevent waste in your home. Protect the security of your children by keeping calm. Attend nutrition for defense meetings, which will be started in February, to keep up on the latest nutrition information and pass it on to your friends through the "good neighbor" plan. Plan your daily work so you will have extra time for Red Cross and other war work without neglecting your family's needs.

Our first and foremost job in saving our democracy is to do better our every day job as a homemaker.

Tires For Farmers

Farmers are eligible to apply for permission to obtain new tires or tubes for their farm implements and for trucks used in carrying food products to markets. The County U.S.D.A. Defense Board has been advised by the Office of Price Administration.

The farmer who wishes to apply for new tires or tubes should use the following procedure, according to Fred Homes, chairman of the defense board.

1. Get an application form from your local rationing board. Take it to one of the board's inspectors and obtain a statement that the tire or tube to be replaced cannot be repaired, recapped, retreaded, or otherwise made usable. (If the tire or tube can be repaired, the farmer will be so advised by the inspector and, of course, he will then be unable to secure new products.)

2. Present to the rationing board the statement secured from the inspector and explain the purpose for which the tire or tube is to be used. Farmers are eligible to apply for tires or tubes for farm tractors or other farm implements for which they are essential, or for trucks which carry farm products and foods to market. Tires or tubes may not be obtained for trucks which transport such products to the ultimate consumer. Tires or tubes may not be obtained for any purpose unless they are to be mounted immediately.

If the applicant meets the standards of the local tire ra-

tioning board, then a certificate will be issued, allowing the applicant to purchase from any dealer, providing the board has not already reached the monthly total of certificates which it may issue.

The Grange

Upper Rogue Grange
H. E. club of Upper Rogue grange met January 20 with the new chairman, Mrs. Helen Axtell, in the chair.

Mrs. Betty Goble and Mrs. Douglas were visitors. The collection was used to buy defense stamps.

It was decided to give up having refreshments and stunts at regular meetings. Instead, the ladies will do Red Cross sewing and knitting. The chairman announced the following on the executive committee: Mesdames Helen Axtell, Georgie Grieves, Meryle Carlton, Helen Coons, Maude Ditsworth and Caroline Harding. Refreshments were served by Mrs. Gay Chamberlin and Mrs. Helen Axtell and entertainment was provided by Mrs. Pauline Walker and Mrs. Carrie Harding.

Jacksonville Grange

Jacksonville Grange convened January 23 in regular meeting. Due to illness some of the officers were unable to be present. Attendance as a whole is improving.

Otto Niedermeyer reporting for the agriculture committee stated that the dairy and beef trade will be enlarged to accommodate the increased trade expected with the cantonment.

Home Economics chairman reported that the club will purchase a \$100 defense bond. Members are also working on a quilt for the first aid station in the Grange hall. The club will meet with Mrs. Lucille Marsh Feb. 11, at 59 N. Orange in Medford.

Carl Niedermeyer discussed some of the current legislative measures.

Grange members enthusiastically joined in the games and the singing during lecture program.

Next meeting will be February 13, at 8 p. m. Grange has planned a public turkey dinner at the hall Feb. 14, serving to begin at 6 p. m. The dinners have proved very popular to the public in the past. Jacksonville Grange ladies are noted throughout the county for their cookery. This dinner will feature modern service, combined with old fashioned county flavor. Entertainment and recreation will be provided for those attending.

Talent Grange

Bellview Grange has invited Talent Grange to a showing of motion pictures of the islands of the Pacific, at 8 p. m. Tuesday, Feb. 3 in Bellview Grange hall.

The pictures are being shown by Mr. and Mrs. David D. Roberts of Medford.

TEAMSTER UNION OFFERS BIG LOAN FREE TO 'UNCLE'

Miami, Fla., Jan. 30.—(AP)—Dan Tobin, authorized to turn \$8,000,000 belonging to the Teamsters International union over to the government as a loan with or without interest, hoped today that the gesture would start a vast flow of interest-free funds into the federal treasury.

Tobin will go to Washington next week to confer with treasury officials and seek a way to transfer the union's funds to government use. As president of the large American Federation of Labor affiliate, he was

voted authority by the international's executive board to draw a check for the \$8,000,000 and endorse it over to the United States government.

"We would like to see other large accumulations of cash made available to the government, interest free," said Tobin. "I can think of one organization right now that could very well turn \$20,000,000 or more over for national use."

Salem Boys Confess Long Burglary Lists

Salem, Jan. 30.—(AP)—City police said today that a 13-year-old boy has confessed burglarizing 15 Salem business houses during the past three weeks, but that his most profitable burglary netted him only \$8.

The police also obtained a confession from a 10-year-old boy who broke into eight residences.

Longer School Week To Enable Crop Aid

Clarkston, Wash., Jan. 30.—(AP)—Clarkston children will attend school six days a week hereafter and not take time out for spring vacation, the school board has announced in compliance with a request by farmers for the action to permit students

to be released earlier this summer for crop work. About 1,400 children are affected by the order which will shorten the term 21 days.

Sandwich, Mass., Jan. 30.—(AP)—Eight-year-old Robert King, who had been missing overnight in a blizzard, died today shortly after he was found in a snowdrift and taken to the Camp Edwards base hospital.
