in other words

by JOHN CLINTON

Except when I see a movie about the desert, get thirsty, go sailing or take a shower, the question of water and its uses rarely enters my consciousness. . . . river stay 'way from my door!

Consequently when Chuck Duncan remarked that my Hispano-Plymouth would, if its cooling system was disconnected, generate enough heat to warm a neighborhood theatre, I was astonished. And when he topped it by saying that an inefficient cooling system could cost me from 1 to 2 miles per gallon in gasoline, I gave in!

So I hasten herewith to warn you—have your cooling system checked, and have it checked now! Also, have it done by Union Oil Minute Men. . . . and here's why:

First, they flush out the whole cooling system. This removes corrosion, rust, lime, grease and gunk that build up in radiator tubes and keep them from doing a good job of cooling. Next, if your radiator leaks, they use STOP-LEAK. This plugs up the leaks and keeps the water in.

Next, they check your fan belt, water pump, hose connections and the radiator itself. (It's always getting clogged with butterflies, bugs and other fauna.) What's the cost of all this? Well that depends on what needs to be done. But even if you have to have all of it, the cost is very little—almost insignificant compared to the results accomplished.

Remember, then—Radio-Union Service—Union Minute Men—Do It Now—wherever you see the sign of the big orange and blue 76.

Local Resident Appears On Sunday Program

Lois White Reed, Medford soprano, appeared on the "American Unity Through Music" program which was presented yesterday afternoon at the Southern Oregon College of Education. The program was sponsored by the Pro Musica honorary and opens the first of a series of concerts to be given each Sunday afternoon for a month at the auditorium.
