Wolfe was arrested by Sheriff Syd L. Brown Saturday morning, as Wolfe was on the way to the courthouse, he claimed, to submit to arrest. He told the sheriff "it was necessary to tone down my wife," the officer testified.

Wolfe told the court he intended to separate from his wife, "even if I have to quit my job." He agreed with the court and the district attorney they could not get along. Preservation of Health

How can we preserve our health? This is a question of great importance. But, really, people are interested more in questions of economic value. As a matter of fact the preservation of health is of great economic importance, from both the standpoint of the individual and of the nation. Too often is health considered as a Divine Blessing bestowed upon one and withheld from another, or as an uncontrollable inheritance. Either case would place it beyond our control. According to the more advanced philosophies, we receive or preserve health only as we open or clear our life channels for its reception. We must desire it so strongly that we are ready willing to give up anything that hinders or obstructs it. Our habits of thought, eating, and general mode of life must be keyed to the laws of health. Our physical organism must be kept in a state of normal tone, resiliency, and free of toxic or abnormal materials. Naturopathy will help you in the preservation of your health.
