ONE ALONE STANDS OUT

KRAKATOA VOLCANO Java, Netherlands, East Indies

Unlike most volcanoes, Krakatoa is completely submerged. Yet "explodes" with such violent force it hurls lava "boulders" 17 miles sky-high! Truly, it stands alone. So, too, does Old Jordan—the standard for men who know their bourbon best.

In Bourbon Whiskey, IT'S OLD JORDAN!

How do we get such "stand-out" flavor in mellow, smooth Old Jordan? Simply because we still make our whiskey the old-fashioned "slow" way we started 100 years ago. The way that takes more time, more care—yet yields such extra richness! Yes! That's why Old Jordan costs more to make—though not one cent more to drink! That's why—when men who know their bourbon best—Old Jordan stands alone! Try some, yourself.

ROOMS AVAILABLE SAYS COORDINATOR

Contrary to reports circulated earlier freely the past several days, there are still plenty of rooms available in private homes and rooming houses for cantonment workers, Frank J. VanDyke, coordinator, said today.

"We understand that rumors have been making the rounds that workmen are sleeping in hallways and like places and that there are no more unoccupied rooms in the city," VanDyke said. "This is not true. There are many nice rooms still available and no shortage of living quarters for single workmen has developed."

For listing of available rooms workmen were advised to contact the housing office at Fifth street and Riverside avenue.
