

MAYFIELD NAMED ROTARY PRESIDENT FOR COMING YEAR

Leonard B. Mayfield, principal of Medford high school, was named president of the Medford Rotary club for the ensuing year at a recent meeting of the newly elected board of directors. Mayfield, former vice-president of the club, has served as president for the past few months in the absence of President D. Ford McCormick, who has been engaged in defense work in Nevada.

Allan Perry, official of the U. S. National bank of this city, was selected to serve as vice-president and H. L. Brown, manager of the Montgomery-Ward store here, was chosen second vice-president. W. E. Lantis, who has served during the past year as secretary of the club, was re-elected to that office. Orin Schenck will again serve as treasurer and Morris B. Leonard will assume the duties of sergeant-at-arms.

Board of directors for the coming year will be Leonard B. Mayfield, D. Ford McCormick, C. B. Collins, Allan Perry, H. L. Brown, Robert Duff and L. M. Weisenburger.

A highly successful year has been completed by the club under the joint direction of President McCormick and Vice-President Mayfield and membership of the organization has shown substantial growth during the period.

C. P. DISTURBER GETS TEN DAYS

William Schultz, 55, charged with disorderly conduct was sentenced to ten days in the county jail and payment of costs yesterday by Justice of the Peace W. R. Coleman. Schultz was arrested by Marshal Arden Pinkham of Central Point after he had created a disturbance.

Schultz, it was brought out, was begging for food, and when asked to cut some wood in payment became angered and did considerable talking, some of which bordered on the unpatriotic.

Oca F. Tatham was assessed \$1 and costs for having no license on a trailer, and Early M. Manley of Tiller, the same for failure to stop at a stop sign.

RAIN NEEDED ON UNIRRIGATED LAND

Rain is badly needed at present on unirrigated farms, according to E. N. Judd, manager of the Medford Irrigation district. Dry land crops have come up and stopped growing, due to present weather conditions.

In irrigated sections, considerable water is being used now, and conditions are somewhat favorable. Showers fell yesterday in the Applegate. The present weather is holding back the snow run-off in the hills, which will not be large. Some snow, not enough to do any good, has fallen the past week in the mountains, reports say.
