

SUGAR RATIONING PLANS EXPLAINED FOR ALL CLASSES

Special Provisions Made To
Care For Those Not Com-
ing Under Ordinary Rules.

(Washington, D. C., April 24.—(Sp.)—Issuance of rationing order No. 3, which sets forth the regulations for sugar rationing to individual consumers and trade users, as well as quotas allowed industrial and institutional users, was announced today by OPA.

Consumers, who will register and obtain their ration books in elementary schools through the country on May 4, 5, 6 or 7, may purchase one pound of sugar with each of the first four stamps in their ration books. Stamp No. 1 will be valid from May 5 to May 16, stamp No. 2 from May 17 to May 30, stamp No. 3 from May 31 until June 13, and stamp No. 4 from June 14 to June 27.

Restaurants and other food services will be able to obtain 50 per cent of the amount of sugar used during the corresponding month last year, or the amount used during March, 1942, while bakers, manufacturers of confectionery, ice cream, dairy products, preserves, bottled beverages, desserts and other specialties will be entitled to an allotment of 70 per cent of past use.

Family Registry

Under the regulations, one adult member of each family unit should register for all members of the family.

Consumers who are not members of a family unit should register for themselves. Consumers not members of a family are not eligible for registration while confined in a public or private hospital, asylum, prison or similar institution.

Special provisions are made for persons who, while not members of a family unit and not confined to an institution, are incapacitated and unable to register for themselves. Such individuals may be registered by the person caring for them or by such other persons as they designate.

Children born after the registration dates will be entitled to a normal ration of sugar, and may be registered at any time at the rationing board where the parents or guardians are registered.

Get Books Later

Consumers who did not receive a ration book at the time of registration because of ownership of more than six pounds of sugar will receive their ration books by applying to their local boards, but only after "the commencement of the latest ration periods which stamps become valid having a weight value equal to the excess sugar supply owed on May 4, 1942."

Persons inducted into the armed forces or those leaving the United States for more than 30 days must surrender their ration books to their local boards. Rationing books must also be returned to the board within 10 days after the death of a person for whom the book was issued.

Persons who become confined to an institution for a period likely to exceed 10 days must surrender to the institution head their ration books, which will be returned to them upon discharge.

While army and navy personnel "subsisted in kind" or fed "in organized messes" are not eligible for a ration book, members of the military establishments who eat at home should register like other consumers. Army and navy personnel "in furlough status for a period in excess of one week" are entitled to their sugar ration for the furlough period, and will receive a purchase certificate upon presentation of leave papers to any rationing board where special provisions are made for consumers May 4, 5, 6 or 7. Upon good cause being shown, they may register after May 21 at their local rationing board. In cases of unusual hardship, boards may permit, at their discretion, registration before May 21.

Special Provisions

Special provisions are also made for consumers who because of transportation difficulties find it a hardship to buy sugar in the quantities allowed during each ration period. Such a consumer may apply to his rationing board for a certificate authorizing him to purchase at one time the total amount of sugar to which he would be eligible during four weeks.

Lost Books

Under the regulations, consumers may apply to local boards for ration books to replace those lost or destroyed, but replacements will not be made till after two months from the date of the application. "To make a false application," it was pointed out, "is a criminal offense."
