Other officers chosen were: First vice president, Cliff Proctor; second vice president, Maurice Schino; secretary-treasurer, Leonard J. Knox; lion tamer, Rev. R. W. Coleman; tailtwister, Frank (Red) J. Cullen. Directors chosen for two years were Jim Grigsby and J. A. McDougall; director for one year, M. E. Olsen.

Don T. Orput, Federal Security agency director for Oregon and the Columbia river area, addressed Lion club members on pending recreational problems before townspeople of the defense area.

Mr. Orput stressed the need of friendliness on the part of citizens toward the boys in uniform. "Entertain them in your homes, wherever possible," said he, "adopt soldiers in your home so that they will enjoy its privileges—let them in on various entertainments."

HAMMOND FETED ON 30 YEARS IN 'PHONE SERVICE

A gold service emblem commemorating 30 years of service in the telephone business was presented to R. B. Hammond, Medford telephone manager, at a dinner given in his honor by his fellow telephone employees Wednesday evening.

R. B. Hammond

ployees, several employees from other exchanges honored Mr. Hammond by their presence.

Mr. Hammond was not only born and raised in this community, but has spent his entire telephone career in Medford. After graduation from the University of Oregon, where he gained fame as a football player, he started in the telephone business in Medford as a collector in 1912. Since that time he has played an active part in the development of the Medford exchange from 15 employees and about 1,210 telephones to approximately 100 employees and 4,400 telephones, including a modern dial system.

Mr. Hammond has also been active in civic affairs, serving as a city councilman, director of the Chamber of Commerce, president of the Kiwanis club and Rogue Valley Golf association director. He is also past worshipful master of the Medford Masonic lodge. He has two sons and one daughter, all who are graduates of the University of Oregon. Mrs. Hammond is also an Oregon graduate. His younger son, Bruce, is now a lieutenant in the U. S. marines on duty with the Pacific fleet.

Get 'em and forget 'em

When you buy Hanes, you put underwear on your body and take it off your mind. It's made from the premium cotton that is extra soft and extra absorbent. This is HANESPUN and knitted into garments that will give you comfort and care-free service for a long, long time.

The streamlined Hanes Crotch-Guard Sports are popular with active men. The HANESKOTE Crotch-Guard provides gentle athletic protection for outdoor and indoor activities. Conveniently placed buttonless front. Elastic in the waistband assures trim fit. You're really unaware of underwear. Team them up with a Hanes Undershirt for extra comfort.

HERE'S A SAVING TIP

Change your underwear frequently. Then it can be rinsed, not scrubbed—with less work on wash-days, less wear on the garment. Crotch-Guard Sports require no ironing.

You may prefer Hanes Women Shorts. These are cut to full size for comfort. The HANES Label assures you quality garments at moderate prices. If you can't get all the HANES underwear you want, remember that a large part of Hanes production is going to our Armed Forces.

Teamsters' Conclave Adopts Suggestions To Help War Effort

Portland, Ore., June 4.—(AP)—The teamsters' watchword for 1942: "Slow down to speed victory."

With conservation of tires and gasoline the dominant chord, a harmonious western conference of the International Brotherhood of Teamsters (AFL) studied today a wartime program that included a slap at employers "who forget the war effort."

Taking their cue from Dave Beck, Seattle, International Teamster vice-president and president of the conference,

union officials from 11 western states considered these suggestions:

1. Lifting the union card of any member caught wasting rubber and gasoline by speeding—either in business truck or private car.
2. Teamsters—and all other workers—should give up pleasure driving for the duration, work longer hours, forget about vacations.
3. In event of gasoline rationing, all motor traffic should be channeled to specified arteries where checkers would make certain that all private and business vehicles were loaded to capacity.
