

F.D.R. WELCOMES PHILIPPINES AND MEXICAN ALLIES

White House Flag Day Ceremony Occasion for Confident Assertion.

Washington, June 15.—(AP)—President Roosevelt, welcoming Mexico and the Philippines into the great United Nations alliance against the Axis in a White House Flag Day ceremony, yesterday asserted confidently that: "We of the United Nations have the power and the men and the will at last to assure man's heritage."

He said the peoples of the "Cinderella? She's Now a Career Woman"

IT TURNS out that Cinderella, yesterday's well-known stepchild, is really Miss Cinderella Junk, queen of the May, belle of the ball, and America's sweetheart. But Miss Junk has no time for Fairy Princes. Instead, she is absorbed in a 24-hour, 7-day-week, win-the-war job—especially with us.

Few things have to be rebuilt so constantly as an oil company. Drilling processes advance. A laboratory discovery junks a refinery over night. Years ago Standard discovered Cinderella's charms, and led her out of the ash-heap—with a scrap-rehabilitation program.

Today this waste-prevention habit serves the nation doubly. Standard knows how to make available for war purposes every shred of scrap. Even its old ship-hawners turn to war-housing in fiber for plaster. And, although a war effort itself, Standard knows how to keep at a minimum its calls for essentials like steel.

You see, something which Uncle Sam has declared a patriotic duty requires simply that we step up a familiar process. Not only is the much sought after Miss Cinderella an old friend. As a matter of fact this new career-woman has been working with Standard for a long time.

United Nations were "taking the sword from the oppressors' hands," and with it "they will destroy those tyrants."

Prior to Sunday, 28 nations, including the United States, Russia, Great Britain and China, had adhered to the "declaration by United Nations" of January 1 embracing the four freedoms of the Atlantic charter and pledging each signatory to use its full resources in the war and not to conclude a separate peace with the enemy.

Allies Welcomed

Adherence by Mexico and the Philippines brought the total to 28 nations and commonwealths. Surround by Dr. Francisco Castillo Najera, the Mexican ambassador; President Manuel Quezon of the Philippine commonwealth, and the diplomatic representatives of 25 other signatories, Roosevelt declared: "Today the Republic of Mexico and the commonwealth of the Philippines islands join us. We welcome these valiant peoples to the company of those who fight for freedom."

The ambassadors and ministers of the governments allied against the Axis stood beside the flags of their countries forming a huge "V" on each side and to the rear of the president.

As the Mexican ambassador and President Quezon added their signatures to the "declaration of the United Nations," the president remarked: "And may I add there is plenty room for more signatures."

Right of All Men

Asserting the four freedoms were the rights of men of every creed and race wherever they live—a "heritage, long withheld," the president said the people of the United Nations "know that their faith cannot be broken by any man or any force."

"And we know that there are other millions who in their silent captivity share our belief," he added.

"We ask the German people, still dominated by their Nazi whip-masters, where they would rather have the mechanized hell of Hitler's 'new' order or—in place of that, freedom of speech and religion, freedom from want and from fear."

"We ask the Japanese people, trampled by their savage lords of slaughter, whether they would rather continue slavery and blood or, in place of them—freedom of speech and religion, freedom from want and from fear."

Taking Sword

"We ask the brave, unconquered people of the nations the Axis invaders have dishonored and despoiled whether they would rather yield to conquerors or have freedom of speech and religion, freedom from want and from fear."

"We know the answer. We know that man, born to freedom in the image of God, will not forever suffer the oppressors' sword. The people of the United Nations are taking that sword from the oppressors' hands. With it they will destroy those tyrants. The brazen tyrannies pass. Man marches forward toward the light."

The chief executive, who in a proclamation last May 9 expanded America's traditional Flag Day into an occasion for honoring the colors of all her associates in the war, concluded his five-minute address by quoting a prayer written for United Nations day by Stephen Vincent Benet, author-poet.

"God of the free, we pledge

Do You Know About ANTI-GRAY HAIR VITAMINS?

This miracle anti-gray hair vitamin named Calcium Pantothenate offers good news to the millions who are handicapped with gray hair. It can now be had in palatable tablet form under the name GRAY-VITA.

Actual tests reported by a leading national household magazine on persons ranging in age from 22 to 60 reveal that 95% show positive evidence of a return of hair color. Taken internally it supplies a natural color pigment, thus the hair roots, as the vitamin deficiency in the body is replenished.

Give GRAY-VITA a trial. Order now and take advantage of our introductory price—only \$1.50 for a 30 day supply. \$4.00 for a 90 day supply. (Formerly \$2.00 and \$5.00.) Test tubes.

"The Shame of Japanese Treachery Must Be Wiped Out!"—F.D.R.

JOIN THE U. S. ARMY AIR FORCES AND

Pay Them Back In Person!

100,000 Men Aged 18 to 26 (Inclusive) Are Needed Now for Officers' Training!

NEW SIMPLIFIED REQUIREMENTS

Are you fighting mad—aching to pay back those Japs and Nazis for those treacherous attacks on us?

Then here's your chance to return the call in person. A chance to see Berlin and Tokyo through a bomb-sight, carrying a wallop that can't ast a fort to smithereens.

The greatest air armada ever known is in the making—and the U. S. Army Air Forces are looking for officers—men like you to become bombardiers, navigators, pilots.

DIPLOMAS NO LONGER REQUIRED

For the first time, Officers' Training Schools are being opened to all young men—irrespective of their education—who can qualify. This includes married men as well as single—men in business, industry, high school, college—all men 18 to 26 (inclusive) who can meet the new, simplified requirements for physical and mental fitness.

You probably can qualify—so apply now! You will then go into Aviation Cadet ranks as quickly as facilities are ready—take the best aviation training in the world while you receive \$75 a month, with expenses paid.

AFTER YOU ARE COMMISSIONED

In less than a year after you start—usually 8 months—you can earn the right to be a Flying Officer—one of "The Three Musketeers of the Air"—Bombardier, Navigator, or Pilot—ready to fly high and hit hard for America.

Or—if you have been to college and have studied the right scientific subjects—you can try for a commission as a ground duty officer—in Armament, Communications, Engineering, Meteorology or Photography.

This past year about 80% of all Aviation Cadets won commissions—of which 67% are now flying officers. So your chances are excellent.

When you become a Second Lieutenant with the U. S. Army Air Forces, your pay ranges from \$183 to \$245 a month. Advancement should be rapid because of the tremendous expansion program of our air army.

And after this war is over and the curse of Hitlerism ended, experts predict that aviation will be the greatest of all growing industries. By training and experience, you will be in the forefront of those opportunities.

FLY WITH US—FIGHT WITH US

If you have thrilled to the mighty deeds of Army airmen, here is your chance to join them.

America's planes are rising fast—by the thundering thousands every month. That's why we want every qualified man to apply now for Officers' Training.

For further information . . . drop in any Army Recruiting and Induction Station for a friendly chat. If you would like to enlist now with one of the Aviation Cadet Examining Boards, arrangements can be made for you to take your mental and physical examinations the same day.

The sooner you apply, the sooner you will go on the list for immediate training. Join now. Fly with us—fight with us, 'til the last Axis plane is shot out of the sky!

NOTE: Those under 21 years of age will require parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants.

THREE WAYS TO ENLIST

All Men of 18 to 26 Years (inclusive) who pass their Aviation Cadet examination and apply for immediate Air Cadet training.

1. may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

2. or they may enlist in the Air Corps Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training.

3. In addition to the two ways outlined above College men and High School seniors (upon entering college) aged 18 to 26, inclusive, may enlist in the Air Corps Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Corps Enlisted Reserve Plan is part of the over-all Army Enlisted Reserve program.

This program provides opportunities for college men to enlist on a deferred basis and to continue their education. However, all students who enlist in the Army Air Corps Enlisted Reserve on a deferred basis to continue their education will be required during their second year to take a qualifying examination prescribed by the War Department to determine if their college work justifies further deferment.

In case of necessity, the Secretary of War shall determine when they may be called to active duty.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not affect regulations regarding established R.O.T.C. plans.)
