

RESEARCH SERVICE NOW AVAILABLE AT JACKSON CO. C-C

Interpretation of WPB and OPA Rules May Be Had by Members of Chamber.

In order to correctly interpret rules and regulations of War Production Board and Office of Prime Administration for its members, the Jackson County Chamber of Commerce has subscribed for the services of the Research Institute of America, whose file of information is now available at the chamber office, it was announced today.

The institute, it was explained, provides a complete indexed and classified file of all rulings and interpretations affecting business. Subscribing to this service, the chamber can be of considerable assistance to its members by making available correct information on rulings of the various boards and agencies and members are invited to take advantage of it by calling at the chamber.

Plans are also being made for a clinic to be conducted by the OPA and WPB in Medford at an early date, at which time many of the questions affecting businesses of all types can be clarified.

Laval Has Trouble Finding Volunteers For Work in Reich

Vichy, July 7—(AP)—Pierre Laval, French chief of government, by his own declaration is finding it "difficult" to recruit volunteers to work in Germany so that there may be an exchange for war prisoners.

In a letter to industrial organization committees he said that 5,000 Frenchmen in German prison camps has been picked up to be freed as soon as enough workmen overcame their "prejudices" and volunteered for service, and asked for cooperation in the effort.

Laval, who has openly stated his desire for a German victory, said an enthusiastic response to his plea would "raise the moral position of our land and assure it its place in the pacified world of tomorrow." He appealed especially to bachelors and said "temporary" expatriation under good conditions is a very limited sacrifice.

Wire Rockets New Gadget For Defense

London, July 7—(AP)—Wire-trailing rockets were disclosed officially today as one of Britain's new weapons of defense against aerial raiders.

The weapon, which has been in use to protect merchant ships for more than a year, was described as an apparatus which shoots a projectile that opens into a parachute from which long wires dangle.

The rockets, fired up as planes swoop to attack, often force them to veer off course or risk entanglement in the wires.

DEFENSE WORKER FINDS NEW LOVE WHEN TIRES THIN

Resort to Street Car Brings Interest in Blonde—Bigamy Charge Is Upshot.

Detroit, July 7—(AP)—Joseph W. Ehasz, 27, of Washington, Pa., presented a problem which Recorder Judge John J. Maher admitted neither he nor a Solomon could solve—but maybe Uncle Sam could.

Ehasz was charged with bigamy, and the facts admittedly were peculiar.

The defendant was a worker in a war plant. When tires were plentiful, he drove his car to work, and spent evenings at home with his brunette wife, Rosylene, never meeting such comely blondes as Mary Jane MacDonald, encountered in a street car which replaced the family car as transportation.

But he did meet Mary Jane, "and, Judge, I found myself liking her," he told the court.

Subterfuge Follows
Followed a bit of subterfuge. He told wife Rosylene he had entered night school, and thus was able to spend more time with Mary Jane. Then he told Rosylene that he had been reclassified by his draft board, and he made arrangements to send Rosylene home to Pennsylvania while he went into the army.

Rosylene went, but came back to find Mary Jane in her apartment—as Mrs. Ehasz.

"I didn't know he was married," said Mary Jane.

"A Solomon couldn't solve this case," said Judge Maher, "but Uncle Sam can."

"I understand he actually has been reclassified."

Ehasz was put on probation until drafted, when both women said they wanted him back.

NORMAL WHEAT YIELD IS VALLEY PROSPECT

There will be a normal yield of wheat in the Rogue River valley this year, though it is feared some wheat and oats were shriveled by the recent heat, according to County Agent R. G. Fowler. The oats and wheat are now in the milk stage, and susceptible to heat. The barley crop is well along. Corn benefited from the warm spell. Extent of the damage is figured as light.

New Chief

Appointment of Paul Miller (above) as chief of bureau in Washington was announced by Kent Cooper, general manager of The Associated Press. He succeeded Brian Bell who died suddenly recently.

DRUNKEN DRIVER GIVEN \$100 FINE

Jesse Miles Storm, route 1, Central Point, pleaded guilty to driving while under the influence of intoxicating liquor in the city court today and was fined \$100 and sentenced to 50 days in the city jail. The jail sentence was suspended upon completion of arrangements for payment of the fine. Storm's driving license was revoked for a year.

Storm was arrested by city police June 28 after he drove his car onto the lawn of the Osteopathic clinic on West Jackson boulevard and struck the clinic sign.

William Andrew Ryburn posted \$200 cash bail in city court today and will appear July 10 on a charge of driving an automobile while under the influence of intoxicating liquor. Ryburn was arrested by city police yesterday on North Holly street.
