

NAZI BLOCKADE POSES PROBLEM FOR ARGENTINA

Though Friendly With Germany, Argentina Must Trade With United States.

New York (U.P.)—Germany's announcement of the extension of her submarine zone of operations to include the entire Atlantic coast was not expected materially to alter the situation with regard to United Nations' shipping, but it posed a problem for Argentina.

The Argentine government is friendly with the Axis. Acting President Ramon S. Castillo administration has refused to break diplomatic relations with Germany, Italy and Japan, although 19 of Argentina's 20 neighbors are either at war or have no intercourse with Axis countries.

Germany has tendered Argentina a full apology for torpedoing and damaging the 13,000-ton tanker Victoria April 17, and has offered to pay for damages.

Argentina, however, with a growing merchant marine, must trade with the United States if she is to obtain badly needed coal and petroleum and whatever newsprint, machinery and other manufactured products she is able to buy under priority rulings. If her ships put into United States Atlantic ports in defiance of the German blockade proclamation, they will be subjected to submarine attack as readily as if Argentina had joined her neighbors in breaking off with the Axis. In such event, there is little likelihood Germany would again apologize and pay for damages, which in any case would be of no benefit to Argentina.

Chilean Ships Use Gulf
Chile, the only other American republic maintaining normal relations with the Axis, dispatches her ships to discharge and load at Gulf of Mexico ports, up to the present outside the German blockade zone.

Argentine ships must pick up coal and other products at east coast ports. These products cannot be shipped overland to New Orleans or Mobile, due not only to prohibitively high freight rates but also to the fact that American railways probably lack the facilities to carry them.

As submarine activity continued unabated in Caribbean and northern South American waters, some South American sources voiced suspicion that U-boats were getting valuable aid in the Western Hemisphere area from so-called neutrals within or close to the Axis orbit.

Military men in Dutch Guiana were reported apprehensive over the situation said to exist in neighboring French Guiana, a Vichy-controlled colony whose capital, Cayenne, has for generations been notorious as the seat of France's overseas penal colony.

Spies May Be in Cayenne
A correspondent of the Dutch Indies Aneta news agency insinuated that Cayenne may now be a center of Axis espionage reporting on shipping movements, if not actually a supply base for Axis submarines.

Certain newspapers in Brazil, also a neighbor of French Guiana and a nation which has lost a number of ships to Axis submarines have urged United Nations action with regard to French Guiana.

More recently the newspaper O Globo of Rio de Janeiro, charged that Spanish steamers are aiding the Axis in its submarine campaign in Western Hemisphere seas.

O Globo pointed to the recent high seas incident in which the Spanish steamer Aldecoa was halted by a submarine and "forced" to supply it with fuel oil. The captain of the Aldecoa reported the incident upon arrival at Rio de Janeiro, but he met with great difficulty in obtaining fuel oil from American firms to replace the combustible he turned over to the submarine.

The newspaper charged, furthermore, that many former Axis ships flying the Spanish flag are now in the greatly augmented trade between European ports and Buenos Aires.

In the 7th century, Alexandria was credited with some four thousand palaces, as many public baths, three times as many shops and 400 theatres and places of amusement.

Sevastopol's great sheltered basin is three-quarters of a mile wide, deep almost from shore to shore and notched on the south with four bays.

Held in Slaying

Mrs. Lillian McNabb Parsons (above), 15, was held at Jasper, Tenn., on a charge of murder in connection with the fatal shooting of a mountaineer neighbor, Hollis Redmond, 20, Mrs. Parsons' husband, also 15, also was arrested.

The newspaper charged, furthermore, that many former Axis ships flying the Spanish flag are now in the greatly augmented trade between European ports and Buenos Aires.

MEAT CENTER TO OPEN SATURDAY

Jack Bickler, well known Medford meat market operator, announced today that he will open his new market, Meat Center, Saturday at 231 East Sixth street, between the Band Box and Monarch Seed and Feed Co.

The large room has been completely remodeled and modern refrigeration and meat display equipment has been installed. An extra large walk-in

storage room will make it possible to keep a large variety of fresh meats available at all times.

A complete line of state and government inspected fresh and cured meats will be featured in the new market.

Mr. Bickler has been with Safeway Stores for 12 years. He has been in the meat markets of the two Medford stores for the past 10 years.

MIDWAY HIGHWAY GRADING NEAR END

Grading of the new Midway highway from the Bybee bridge across Rogue river will be completed this week, when paving will start, members of the county court said today. The new work makes the road straight from Agate school to Bybee bridge and lies within the cantonment area. It eliminated a series of curves and dips near the Bybee bridge. The road is expected to be ready for travel

within a month. The county court expects to install a rock crusher on the Butte Falls road the coming week and do considerable road grading in this section, as well as other parts of the county. Due to lack of labor and inability to procure replacements for road machinery little construction is planned this year. Road work will be confined chiefly to grading and graveling.

Alexandria's harbor became a gateway to the East when Alexander the Great founded the city in 332 B. C.

Since 1941, Georgia's 4-H club members have more than tripled the acreage of peanuts grown.

Incoming Girl Scouts Get Camp Invitation From Medford Girls

Girls who were members of Girl Scout troops in other cities and who are moving to Medford with their parents, perhaps with the military personnel, are welcome to attend Girl Scout camp at Lake o' Woods. It was announced today. Those interested are asked to register at the Girl Scout headquarters across Bear creek on East Main street. Registration for camp closes Friday of this week and transportation to and from the camp site may be arranged at a nominal fee. The camp site is located 50 miles from Medford and offers recreational facilities of varied nature.

The Suoz is a sea-level canal without locks.
