SACRO-ILIAC PAINS
A sacro-iliac injury often produces intense pain. You feel all right. Then you have a slip, a strain, or a fall and the pain strikes suddenly. The bones of the lower back and pelvis slip and irritate delicate nerves. Often other delicate tissues are injured. Movement becomes painful and often difficult. Normal nerve function which relieves irritation and creates ease of movement, can be attained by gentle structural adjustment. The nerve balance is restored. Strain is removed, the tissues if injured heal, the pain is gone, and you are soon well again.

Attorney to Collect Walbert Insurance Is Authorized by Court

A petition on order authorizing retention of an attorney for the collection of two insurance policies for \$1000 each, assets of the estate of C. E. Walbert and wife, local couple who disappeared in November 1940, while on an airplane trip to Portland, has been filed in circuit court by O. B. Waddell, administrator of the estate.

The two insurance policies issued by the Oregon Mutual, and the Macabees in 1934, have been denied payment by the insurance concerns, the petition sets forth. Mrs. Walbert is named as beneficiary of both. The Walberts left here in a Cub plane, with bad weather prevailing. No trace has ever been found of them or the plane. Many reports were received from residents of the Prospect and Umpqua Divide areas, of hearing a plane, presumed to be the Walberts. Extensive aerial searches were made, and a reward for finding of the plane and the Walberts was offered by the Medford Flying club of which they were members.
