NAVY SEIZURE OF CABLE PLANT NOT STRIKE APPROVAL

Washington, Aug. 18.—(Sp.)—Secretary Knox said today that the navy's seizure of the General Cable company plant at Bayonne, N. J., last Friday "must not be construed as an endorsement of the attitude of the group of the employees who participated such action."

Knox made the statement in a telegram to Michael Petrakian, employees' leader who had wired President Roosevelt a promise that the workers would double their efforts now in order to offset the loss in production caused by the work stoppage last week.

The navy acted after the employees had gone out on an unauthorized strike resulting from a wage dispute.

The war labor board had attempted to settle the dispute but Knox declared that it failed because the workers, in striking, defied it.

Knox's telegram to Petrakian declared that the workers' action was "a dangerous threat to the success of our national effort in this critical emergency."

"The navy has too much fighting to do to be managing plants which should be operating in the American way under their own management," Knox said "and I am sure the men will want to relieve the navy promptly of this responsibility."

The vetch and pea seed crop was discussed, giving some of the highlights on the government seed purchase program.

During the lecturer's hour the Grange presented Mr. and Mrs. Lester Hill with a small wedding gift and the best wishes of the entire grange. Mr. and Mrs. Hill sang "The Rose of San Antonio" and "Johnny Doughboy."

Ben Elmore led the group in a quiz on various birds. The lecturer's hour closed with some group singing.
