

OFFER TO SCRAP WHOLE RAILROAD, 9,000 BUILDINGS

Country-Wide Salvage Drive
Uncovers Large Sources;
22-Story Towers Doomed

By Le Roy Pope
(United Press Correspondent)
New York, Sept. 25.—(U.P.)—An offer by Sam Rosoff, a subway contractor to turn in a whole railroad—41 miles long and containing 7,000 tons of steel—to the national salvage drive was topped today by plans of federal and municipal authorities in New York to wreck 9,000 buildings and get scrap.

out of the current country-wide scrap drive sponsored by the American Newspaper Publishers' association.

Eyesore Doomed

Razing of the first building in New York probably will start next week under the direction of War Materials, Inc., the new federal salvage corporation. Nine other buildings have been selected to go, including the \$5,000,000 22-story Hudson Towers, long a Manhattan white elephant. Started in 1924, it was to have been a big private hospital. Actually it never has been occupied and is owned by the city. It is expected to yield 1,000 tons of steel.

Most of the other buildings to be demolished under Moses' determined plan, are "old law" tenements. Moses said that the owners, who have evaded the new building code while reaping profits from these slum apartments, will get short shrift now. "We'll ask Washington for quick action, if the owners try to fight," he said. "Either this is a war or it isn't and if it isn't we're the victims of a monstrous practical joke."

Railroad in Black
Rosoff, a Russian-born immi-

grant who made a fortune building subways, will have to get permission of the ICC to scrap his railroad, the Delaware and Northern, which serves eight towns in Delaware county, N. Y., with two trains daily and one on Sunday.

To own a railroad was an early ambition of Rosoff. He bought the D. & N. in 1928 for \$70,000 and spent \$600,000 on it. He claims it was appraised at \$10,000,000 in December, 1937.

"It's a going concern, but the country needs the scrap worse than that railroad is needed up there," said Rosoff. "There's enough steel in it to make 400 medium tanks or 280,000 50-calibre machine guns. I'm told. Everything I have I owe to this great nation which gave me my start. We must win this war. If my railroad, converted into guns and armament, can help achieve this end, I want to scrap it."

The metal drive in the New York area found an enthusiastic response everywhere. In factories, offices, and apartment buildings, thousands of tons of metal articles ranging from coat hangers to Rolls-Royce automobiles were offered.

Fine Cars Donated

The wife of the former movie magnate, William Fox, donated two Rolls-Royces and a Hispano-Suiza car from her home at Woodburgh, L. I.

Mayor Vincent J. Murphy of Newark, N. J., turned in a set of plumbing tools.

"I haven't worked at the plumbing trade for 20 years and I hope to stick in city hall a few more years, so I'm giving up my tools," he said.

The New York World's Fair grounds in Flushing Meadows were turned to as a source of scrap, but the haul there was disappointing.

SGT. FITZGERALD WANTS TRIBUNE

Sgt. Herbert Fitzgerald, son of Mr. and Mrs. F. H. Fitzgerald of Sams Valley has written requesting that the Mail Tribune be sent to him.

Sgt. Fitzgerald has been stationed in Alaska for over 18 months and says Alaska is fine but he longs for the atmosphere of Southern Oregon at times and thinks the Mail Tribune might help to add that touch. Sgt. Fitzgerald was formerly an employee of the City of Medford.

Mr. and Mrs. Fitzgerald also have two other sons in the service, Jerome, of the marine corps stationed at Indian Island, and Gerald, who left September 22 for Fort Lewis.

RUSSIA DENIES

Moscow, Sept. 25.—(U.P.)—Russia denied today that soviet planes have bombed Bulgaria, which is not officially at war with the soviet union.

Russ Strike Back on Two Sectors

(Acme Telephoto)
At Stalingrad and at Tuapse in the south two Russian Armies counter-attack furiously to beat back Nazi hordes that have been attempting to capture and isolate the rich Caucasian oilfields. Mapped here are the front and spearhead drives by the opposing forces.
