

Give War Bonds...the greatest Gift of all!

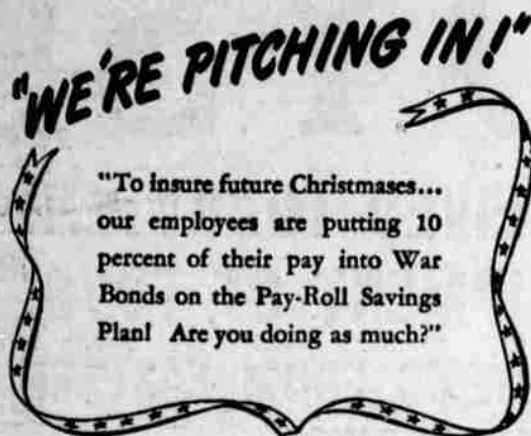

"I am the gift that will mean safety, and security, and freedom to celebrate all our future Christmases. I help save the very lives of American boys, fighting in distant lands. For I am the means of translating America's desperate need for war materials into actual guns, planes, and tanks. Yes, and I am the answer to the deep desire of every American at home to do all he can for his country. Though that, in itself, is enough for a patriot, I am still more. For I am a gift that lives to increase in value, and be worth one-third more in 10 years from today. I will make this Christmas and every Christmas to come, bright and joyous for your loved ones."

WHY U. S. WAR BONDS ARE THE GREATEST GIFT OF ALL

1. For every \$3 you invest in War Bonds, you get back \$4 at the end of 10 years.
2. They are obligations of the United States. Every asset of the U. S. Government—everything your Government owns—is back of them. That's why War Savings Bonds are truly the safest investment in the world.
3. They do not fluctuate in dollar value—are never worth less than you pay for them.
4. Your savings in War Bonds cannot be lost or stolen. Each Bond is registered in your name at the Treasury Department.

**THIS
YEAR**

**Your Country Needs
Your "Christmas Money"**

Instead of those frivolous things we used to send each other—things that expressed our warmth of Christmas spirit but sometimes weren't much use—our country asks us this year to do one simple thing:

Give United States War Savings Bonds and Stamps as Christmas presents. Give as many as you can. Give them because they are the most valuable presents you can offer... gifts that increase in dollar value every year until maturity. Give them because your country needs the money you invest in them—needs it now, this very day, to pay for the tanks and planes and ships our boys must have.

Give U. S. War Savings Bonds and you give doubly: you provide American soldiers with the equipment to win, and you give your loved ones the safest investment in the world.
