MARSHALL IRKED BY REPORTS OF COMING SWITCH

All is Harmonious in Top Military Command House is Told by Three Members

Washington, Sept. 28.—(U.P.)—All is harmonious in the top military command of the army and Gen. George C. Marshall resents reports to the contrary, the house of representatives was told today by three members who have discussed the situation with him.

They evidently were referring to reports that Marshall was to be assigned to a new command and that Lieut. Gen. Greghon V. Somervell would succeed him as chief-of-staff.

Chairman Andrew J. May, D. Ky., of the house military affairs committee, Rep. Walter G. Andrews, N. Y., senior Republican member, and Rep. R. Ewing Thomas, Tex., senior Democratic member, each said in brief addresses that they had discussed the recent reports with Marshall today.

No Interference
House Majority Leader John W. McCormack, D. Mass., said that Secretary of War Henry L. Stimson had told him today that President Roosevelt had not interfered with the war department in the choice and assignment of general officers.

Andrews said he thought the time had come to name a supreme Allied commander and that Marshall was "pre-eminently fitted for the job."

It has been variously reported that Marshall was to be assigned to London to command the European theater, that he was going to London to become global commander of all Anglo-American armed forces, and that he was being "kicked upstairs" to make room for a new chief-of-staff, possibly Somervell.

Meanwhile, reports of sudden British interest in a speedup of plans for a cross-channel invasion of western Europe appeared to have come too late to promise any such knockout maneuver against Germany before 1944.
