BEAU JACK UPSET
BY BOBBY RUFFIN
IN TEN-ROUNDER8-1 Underdog Outspeeds and
Outboxes Ex-Champion—
Over 14,000 Watch Scrap

By Jack Cuddy
(United Press Correspondent)
New York, Oct. 5.—(U.P.)—Ex-Champion Beau Jack, victim of the most discordant "tune-up" in modern ring history, gets his shot at the lightweight crown, November 19, despite last night's stunning upset defeat by lightly regarded Bobby Ruffin.

Beau Jack, hard-hitting Georgia negro, accepted New Yorker Ruffin as a tune-up opponent merely to sharpen his weapons for the return title tilt with Lightweight Champion Bob Montgomery next month at Madison Square Garden.

But a World-Series-eve crowd of 14,449—including Lana Turner and Frank Sinatra—shook the Garden's girders with their cheers of surprise as Ruffin, the 8-1 underdog, gave brown-skinned Beau a thorough boxing lesson to win the unanimous 10-round decision.

There were no knockdowns in the bout; but several bookmakers were prostrated in the balcony.

Loser Allis

Beau Jack had three aibs for his defeat; (1) he fought with a bandaged right knee—injured in training; (2) he was over weight at 140½ pounds, the heaviest of his career; (3) he was rusty from lack of competition, having had but one bout since Montgomery captured his crown last May.

It is a matter of debate whether Jack's poor form or Ruffin's speed and boxing skill was principal cause of the upset. It's a fact, however, that Ruffin shook off Jack's hardest punches, meanwhile persistently "painting" the bewildered ex-champ with light jabs and rights and evading most of Jack's barn-door swings. Ruffin forgot to duck in the ninth and suffered a gashed left brow.

The United Press scored five rounds for Ruffin; three for Jack, and two even.

After announcing the gate as \$43,429, Promoter Mike Jacobs said the Montgomery-Beau Jack title fight must be held on November 19, "because contracts have been signed, and forfeits of \$1,500 posted by each of the principals."

OKLAHOMA FLASH
BEST IN BIG SIX

Kansas City, Mo., Oct. 5.—(U.P.)—A navy-transplanted Texan looks like the boss of the Big Six football range this fall and University of Oklahoma followers are uttering hosannas whenever they think of the 26-year-old Galloping Ghost from the Lone Star state.

His name is Bob Brumley. He's grid-scarred but still fascinated by the pigskin sport despite nine major injuries suffered in his 14 years of line-bucking.

In his two starts this fall in a Sooner uniform, he left no doubt that in his youth he was all that he was supposed to be—outstanding player in the Southwestern Conference back in 1940 when he was playing for Rice Institute at Houston.

Bears and Trojans In Grid Classic

In one of the Pacific Coast's traditional "big games," the Bears of the University of California and the Trojans of the University of Southern California tangled at Memorial Stadium, Berkeley, in their 1943 wartime grid classic. Here, Cal fullback Bob Weeks (48) rips off five yards around and behind the interference running of left half Dick Munroe (66). Coming into the play are Trojans Pete MacPhail (86), right end; Bruce Kelkner (73), left tackle, and Lou Futrell (31), right half.

Angelo Bertelli Of Irish
May Become Greatest Passer

By Tommy Devine
United Press Staff Correspondent.
Chicago, Oct. 5.—(U.P.)—A wiry Italian lad, Angelo Bertelli of Notre Dame, today began pushing illustrious grid greats like Benny Friedman, Sammy Baugh, Davey O'Brien and Paul Christman for recognition as one of modern college football's greatest forward passers.

Bertelli's accurate aerial thrusts paced Notre Dame to its smashing 55 to 13 victory last week over Georgia Tech and the 22-year-old marine trainee gets another spotlighted chance to unlimber his arm Saturday when the Irish meet Michigan at Ann Arbor in the mid-west's outstanding contest.

Bertelli isn't a stranger to the ranks of excellent forward passers. He's been in that company since he made his collegiate debut, but the 173 pound West Springfield, Mass., boy now appears headed for the greatest season of his career. It's a season which Bertelli doesn't know whether he'll be able to finish however for he's scheduled for a service transfer Nov. 1. Meanwhile he's making the most of his opportunities.

Bertelli, operating from the intricate "T" formation, threw seven passes against Georgia Tech and completed six of them. Three of the tosses were good for touchdowns.

A week earlier against Pittsburgh, Angelo completed three out of four passes, so for the young season he has a record of nine completions in 11 attempts for a "pitching percentage" of .818.

In his sophomore season Bertelli was among 1941's top passers when he completed 70 out of 123 tosses for a .569 average. Last year early season difficulties with the "T" hampered his aerial effectiveness and he slumped to .448 on 74 completions in 165 attempts.

Bertelli's up-to-the-minute collegiate passing record is 153 completions out of 299 tosses for a .511 average. That the Notre Dame star hasn't padded his mark by merely throwing short "inch" passes is indicated by the fact his aerials have netted an aggregate of 2,203 yards, an average of 14.3 yards per completion.

Coach Jim Phelan said he would take a minimum squad to Salt Lake. The Utah game is the seventh to be scheduled for the St. Mary's college team, playing without benefit of marine or navy trainees.

15-YEAR-OLD BOY
KILLS DEER WITH
KNIFE AND RIFLE

If Jim Warner lives to be the proverbial hundred years old, he'll never be any more excited or thrilled than last Saturday, for that day 15-year-old Jim shot his first deer, a three-point buck. What's more, he killed it with a .22 rifle, or rather, with the rifle and his pocket knife.

Jim had longed for many months to go deer hunting, so Mr. and Mrs. E. W. Ekman, Kings Highway, with whom he makes his home, provided the youngster with a license and Friday night took him to Trail, where he stayed with his cousin, Charles Snead, 14. Saturday morning the two boys started out, hiking up one of the mountains near Trail.

Noon came and the boys sat down on a rock to eat their lunch. Hearing a noise, they both turned to see two small bucks coming from behind some rocks. Jim took a shot with his small rifle and one animal fell. Charles shot the other in the leg; it fell and he shot again, killing the animal with the second shot.

As Jim and Charles approached the animals, Jim started to move and, fearful that it had been only stunned and would get away, Jim fell on the deer and slit its throat with his knife. Wild with excitement, the two boys returned home and brought back to the scene Mr. Snead and equipment to carry the animals down the mountain. The deer were later brought to Lamport's sporting goods store here in Medford where it was strangely found that both deer weighed exactly the same, 119 pounds apiece.

Jim yesterday started the process of mounting the deer head and tanning the hide. His father, no longer living, was a taxidermist by trade and the boy is experienced in the work.

Yesterday Jim commanded the respectful attention of his fellow students at junior high school, for he had a real story to tell.

QUALIFYING TEST
TO BE GIVEN FOR
ARMY, NAVY V-12

The second qualifying test for the army specialized training program and the navy college program V-12 which will be given throughout the country on Tuesday, November 9, will be administered at the Medford high school, Principal L. B. Mayfield announced today. A pamphlet of general information which contains an admission-identification form may be obtained at the high school office. This form properly filled out will admit to the test students between the ages of 17 and 21 inclusive who are recent high school graduates or who will be graduated by March 1, 1944. Intent to take the test should be made known immediately to Mr. Mayfield.

The same examination will be taken by both army and navy candidates. The examination is designed to test the aptitude and general knowledge required for the program of college training and all qualified students are urged to take the test. At the time of the test each candidate will be given a choice of service preference, but taking the test does not obligate the candidate to enlist in the service.

The army specialized training program and the navy college program enable students to continue academic training at government expense following induction into the armed services. Successful completion of the prescribed courses may, following further officer training, lead to a commission in the army or the navy.
