ADDED COIN FOR SOLDIER CHILDREN GIVEN APPROVAL

House Committee Favors
\$25 For 1st Child, \$20
For 2nd, \$15 Each After.

Washington, Oct. 7.—(U.P.)—The house military affairs committee today approved a bill to increase the government allowance for children of men in the armed forces to \$25 a month for a first child, \$20 for the second child and \$15 for each additional child.

The proposed scale represented a compromise between one recommended by a house military affairs subcommittee—\$22 for the first child, \$18 for the second and \$16 for each additional—and the scale approved by the senate yesterday in passing legislation to tighten up on occupational draft deferments. An amendment written into that bill would provide \$30 a month for the first child and \$20 for each additional.

Tighten Draft Bill
The senate passed the increased allowance and tighter occupational deferment bill last night, 69 to 0, as a substitute for the bill by Sen. Burton K. Wheeler, D., Mont., to defer pre-war fathers until Jan. 1. Administration leaders, who charged the Wheeler bill would dangerously disrupt Allied strategy, said it was a "dead duck" with virtually no chance of revival in the house.

(The present allowances are: \$50 a month for a wife, \$12 for the first child, and \$10 for each additional child.)
The bill approved by the senate yesterday also would:
1. Limit deferment of federal employees to pre-war fathers and mother as indispensable.
2. Bar deferments in private industry for non-fathers, unless the registrant's employer certifies his indispensability to the local board in writing.
3. Require appeal boards at the place of employment to pass on the deferment as well as the registrant's local board.

Non-Fathers First
4. Require induction of non-fathers ahead of pre-war fathers "as far as practicable in the opinion of the selective service director."

5. Increase dependency allotments as outlined above. In a roll call vote, this provision passed the senate 48 to 1.

6. Provide for appointment of a board to examine present physical standards of the armed services and recommend any changes deemed advisable.

7. Permit any registrant to take his final physical examination in advance of his call for induction.
